

State of Idaho
Department of Water Resources
Permit to Appropriate Water
No. 43-13849

Priority: August 19, 2019

Maximum Diversion Rate: 35.00 CFS
Maximum Diversion Volume: 10,000.0 AF

This is to certify that

RAFT RIVER GROUND WATER DISTRICT
PO BOX 122
ALMO ID 83312-0122

has applied for a permit to appropriate water from:

Source : RAFT RIVER

Tributary: SNAKE RIVER

and a permit is APPROVED for development of water as follows:

<u>Beneficial Use</u>	<u>Period of Use</u>	<u>Rate of Diversion</u>	<u>Annual Volume</u>
GROUND WATER RECHARGE	01/01 to 12/31	35.00 CFS	10,000.0 AF

Location of Point(s) of Diversion

RAFT RIVER SE¼ NE¼, Sec. 24, Twp 12S, Rge 26E, B.M. CASSIA County

Place of Use: GROUND WATER RECHARGE

Twp	Rng	Sec	NE				NW				SW				SE				No QQ	Totals
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE		
12S	26E	24				X														

Conditions of Approval

1. Proof of application of water to beneficial use shall be submitted on or before **January 01, 2025**.
2. Subject to all prior water rights.
3. Rights 43-13849, 43-13850, 43-13851, when combined shall not exceed a total diversion rate of 35.0 cfs and a total annual maximum diversion volume of 10,000 af.
4. Rights 43-13849, 43-13850, 43-13851, 43-13787, 43-13788, 43-13789, 43-13731, 43-13732, 43-13733 and 43-13734 when combined shall not exceed a total annual maximum diversion volume of 10,000 af.
5. Use of water under this right shall be non-consumptive.
6. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 43A.
7. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).
8. Return flow discharged to a subsurface system must be authorized by a separate injection well permit.
9. Pursuant to Idaho Code § 42-234(4), to ensure that other water rights are not injured by the operations of the recharge project authorized by this right, the Director has authority to approve, disapprove, or require alterations in the methods employed to achieve ground water recharge.

State of Idaho
Department of Water Resources
Permit to Appropriate Water
No. 43-13849

10. Pursuant to Idaho Code § 42-234(3), the Director may reduce the amount of water that may be diverted for recharge purposes under this right even though there is sufficient water to supply the entire amount authorized for appropriation under this right.
11. This approval does not constitute approval by the Idaho Water Resource Board, which may also be required pursuant to Idaho Code § 42-1737.
12. The right holder shall record the daily quantity of water diverted for ground water recharge and shall report the diversion data for the prior calendar year to the Department by February 1 each year. Reporting shall occur in the manner specified by the Department, consistent with Idaho Code § 42-701. To facilitate this reporting requirement, the right holder shall install and maintain a totalizing measuring device approved by the Department at each point of diversion and at each point where water is delivered from the conveyance system into a designated recharge site.
13. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.
14. This right does not grant any right-of-way or easement across the land of another.
15. Prior to the diversion and use of water under this approval, the right holder shall comply with applicable water quality monitoring and/or permitting requirements administered by the Department of Environmental Quality or the Department of Agriculture.
16. This right is not an authorization for the described recharge effort to be used as mitigation or credit for any other purpose. The sufficiency of the recharge effort authorized under this right for mitigation or credit for some other purpose may be determined by the Department upon proper submission of a mitigation plan pursuant to the Department's Rules of Conjunctive Management of Surface and Ground Water Resources, a mitigation plan to offset depletion in association with a water right application, a Management Program pursuant to Idaho Code Idaho Code § 42-1416B, or any other proposal to utilize credit for the recharge effort.

This permit is issued pursuant to the provisions of Idaho Code § 42-204.

Signed this 2nd day of January, 2020.

RE: Permit No. 43-13849, 43-13850, 43-13851

Permit Approval Notice

Dear Permit Holder(s):

The Department of Water Resources ("Department") has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review all the conditions of approval listed on your permit. The conditions include requirements that you must accomplish, such as timely submittal of proof of beneficial use or installation of a measuring device, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district. Failure to comply with the conditions of approval may result in your permit lapsing or being canceled.

The permit is a PRELIMINARY ORDER issued pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

The final step in the water right process is issuance of a water right license. To receive a water right license, you must first commence the excavation or construction of your diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is complete. In addition, you must divert and use water to the full extent intended and submit a *Statement of Completion for Submitting Proof of Beneficial Use* by the date shown in condition no. 1 of your permit. The Department will send you a *Proof Due Notice* approximately 60 days prior to the date listed in condition no. 1 of your permit.

You may also require approvals from other Department programs, such as Ground Water Protection, Safety of Dams, or Stream Channel Protection, to accomplish your proposed development. Please call or visit any Department office or see the Department's website at idwr.idaho.gov for more information about these programs.

Also, please note that permit holders are required to report any change of ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Forms to assign ownership or update your address are available from any office of the Department or on the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 736-3033.

Sincerely,

A handwritten signature in blue ink, appearing to read "Corey Skinner", with a stylized flourish at the end.

Corey Skinner
Southern Regional Manager

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Use: GROUND WATER RECHARGE 01/01 to 12/31 35 CFS

Total Diversion: 35 CFS

Date Filed: 8/19/2019

Place Of Use: GROUND WATER RECHARGE
T12S R27E S6 L6(NWSW)

Application for permit proposes diverting up to 35.0 cfs for ground water recharge from a new point of diversion from Raft River located approximately 6.5 miles north and 0.9 miles east of Malta. The ground water recharge will occur at a site near the point of diversion. The applicant currently holds ground water recharge permits 43-13731, 43-13732, 43-13733, 43-13734, 43-13787, 43-13788, and 43- 13789 for a combined total of 25 cfs at different Raft River diversion and recharge sites. This application, 43-13851, and companion applications for permit 43-13849 and 43-13850 describe the same 35 cfs to be diverted (all three applications limited to 35 cfs), but will be in addition to the 25 cfs covered under existing permits 43-13731, 43-13732, 43-13733, 43-13734, 43-13787, 43-13788, and 43- 13789. Information submitted with the application indicates that this application, along with companion applications for permit 43-13849 and 43-13850, when combined with existing permits 43-13731, 43-13732, 43-13733, 43-13734, 43-13787, 43-13788, and 43- 13789 will be limited to a combined total of 10,000 acre-feet annually.

Permits will be subject to all prior water rights. For additional information concerning the property location, contact Southern Region office at (208) 736-3033; or for a full description of the right(s), please see research.idwr.idaho.gov. Protests may be submitted based on the criteria of Idaho Code § 42-203A. Any protest against the approval of this application must be filed with the Director, Dept. of Water Resources, Southern Region, 650 ADDISON AVE W, STE 500, TWIN FALLS, ID 83301-5858 together with a protest fee of \$25.00 for each application on or before **November 25, 2019**. The protestant must also send a copy of the protest to the applicant.

Good morning Denise,

Thank you for the opportunity to review the attached Application for Permits 43-13849, 43-13850, and 43-13851 for Raft River in Cassia County.

After speaking with Benny Walker, he clarified that the combined water rights identified above would be limited to 35 cfs and these water rights plus the seven already permitted would be limited to no more than 10,000 acre feet for the year.

Based on the clarification, IDFG has no comments at this time.
