**ORDER AUTHORIZING
TEMPORARY CHANGE**

TC-01-80

2007

WHEREAS, a drought emergency has been declared for JEFFERSON County to allow administrative actions to lessen the severe impacts of the drought conditions in the county; and

WHEREAS, section 42-222A, Idaho Code, provides that upon declaration of a drought emergency, the director of the Department of Water Resources ("Department") is authorized to allow temporary changes in the point of diversion, the place of use, and the purposes of use for valid existing water rights or temporary exchanges of water authorized under water rights when the director determines that such changes can be accomplished in accordance with the provisions of section 42-222A, Idaho Code; and

WHEREAS, on SEPTEMBER 14, 2007, PROGRESSIVE IRRIGATION DIST submitted the attached Temporary Change Application TC-01-80 to the Department; and

WHEREAS, the Department has reviewed the application and has determined the application can be approved with certain conditions;

ORDER

IT IS HEREBY ORDERED that the application is **APPROVED** subject to the following conditions:

1. Diversion and use of right no(s). 1-65 is authorized only at the point of diversion and place of use described on the application.
2. This temporary Change approval does not authorize construction of a new well as a point of diversion.
3. The applicant assumes all risk of curtailment or mitigation should the diversion and use of water under the temporary change approval cause injury to other water rights, constitute an enlargement in use of the original right, be inconsistent with the conservation of water resources within the state of Idaho, or not be in the local public interest.
4. This temporary change approval may only be used to provide a replacement water supply to lands or other uses that normally have a full water supply, except for the drought conditions. This temporary change approval may not be used to provide water for new development or to allow expansion of the use of water under existing water rights.

**ORDER AUTHORIZING
TEMPORARY CHANGE**

TC-01-80

5. Right(s) 1-65 are limited to the irrigation of a total of 12,364 acres in a single irrigation season.
6. This temporary approval does not authorize the use of diversion works or a delivery system owned by or managed by a corporation or an irrigation district without the written consent of such corporation or irrigation district.
7. The applicants agree to hold the director and the state of Idaho harmless from all liability on account of the diversion and use of water under this temporary change approval.
8. This temporary change does not grant any right-of-way or easement to use the diversion works or conveyance works of another person or entity.
9. The applicant is subject to all conditions and limitations listed on the application under the section titled "ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES".
10. The applicant shall measure the amount of water diverted and shall report the amount of water diverted under this approval.
11. The Watermaster of Water District No. 01 is authorized to administer the temporary change approval.
12. This Temporary change approval expires on SEPTEMBER 23, 2007 unless rescinded or extended by the director. Thereafter, the water right shall revert to the point of diversion, place of use, and nature of use existing prior to the temporary change approval.

DATED this 14th day of Sept., 2007.

For the Director

Memorandum and Water Use Agreement

Whereas drought conditions have continued in Idaho, and the need to provide for temporary changes in water right administration is recognized by Idaho Code 42-222A; and

Whereas it is mutually agreed that no one is materially damaged and benefits may accrue to both parties; the parties, Progressive Irrigation District (Progressive) and Harrison Canal and Irrigation Co. (Harrison) agree to the following;

Beginning September 15, 2007 at 12:01 A.M. Progressive will transfer 100 c.f.s. of natural flow decreed water with a priority date of 4-03-1884 to be used by Harrison for the following period; September 15, 2007 to September 23, 2007.

The parties believe that the priority dates of these water rights involved will be deliverable for the period of time contemplated in this agreement.

The diversion points for Progressive will be any of their recorded points of diversion and the diversion point for Harrison is the Harrison head works on the Great Feeder Canal.

The purpose of this transfer is to provide a means for Harrison to consolidate natural flow, and to provide a means to actually irrigate rather than divert decreed water in such an amount that would not provide adequate water to the patrons of Harrison;

This agreement is adopted and approved this day, September 14, 2007; signing for the parties;
