**ORDER AUTHORIZING
TEMPORARY CHANGE**

TC-01-55

WHEREAS, a drought emergency has been declared for Jefferson County to allow administrative actions to lessen the severe impacts of the drought conditions in the county; and

WHEREAS, section 42-222A, Idaho Code, provides that upon declaration of a drought emergency, the director of the Department of Water Resources ("Department") is authorized to allow temporary changes in the point of diversion, the place of use, and the purpose of use for valid existing water rights or temporary exchanges of water authorized under water rights when the director determines that such changes can be accomplished in accordance with the provisions of section 42-222A, *Idaho Code*; and

WHEREAS, on July 14, 2004, Long Island Canal submitted the attached Temporary Change Application TC-01-55 to the Department; and

WHEREAS, the Department has reviewed the application and has determined the application can be approved with certain conditions;

ORDER

IT IS HEREBY ORDERED that the application is **APPROVED** subject to the following conditions:

1. Diversion and use of right no(s). 01-114C is authorized only at the point of diversion and place of use described on the application.
2. This temporary Change approval does not authorize construction of a new well as a new point of diversion.
3. The applicant assumes all risk of curtailment or mitigation should the diversion and use of water under the temporary change approval cause injury to other water rights, constitute an enlargement in use of the original right, be inconsistent with the conservation of water resources within the state of Idaho, or not be in the local public interest.
4. This temporary change approval may only be used to provide a replacement water supply to lands or other uses that normally have a full water supply, except for the drought condition. This temporary change approval may not be used to provide water for new development or to allow expansion of the use of water under existing water rights.

ORDER AUTHORIZING
TEMPORARY CHANGE

TC-01-55

5. Right(s) 01-114C are limited to the irrigation of a total of 16021.8 acres in a single irrigation season
6. This temporary approval does not authorize the use of diversion works or a delivery system owned by or managed by a corporation or an irrigation district without the written consent of such corporation or irrigation district.
7. The applicants agree to hold the director and the state of Idaho harmless from all liability on account of the diversion and use of water under this temporary change approval.
8. This temporary change approval does not grant any right-of-way or easement to use the diversion works or conveyance works of another person or entity.
9. The applicant shall measure the amount of water diverted and shall report the amount of water diverted under this approval.
10. The Water master of Water District No. 01 is authorized to administer the temporary change approval.
11. This Temporary change approval expires on November 15, 2004 unless rescinded or extended by the director. Thereafter, the water right shall revert to the point of diversion, place of use, and nature of use existing prior to the temporary change approval..

DATED this 28th day of July, 2004.

Dear Mr. Carlson:

The Long Island Canal had entered into an earlier agreement with Clyde Jones of Menan to supply storage water to a pump operated by Mr. Jones drawing water from the Dry Bed / Great Feeder Canal in lieu of water owned by Mr. Jones in the Long Island Canal. As the Long Island Canal does not have storage water to supply the pump this year, we are requesting that water drawn by Mr. Jones' pump during the current irrigation season (2004), be considered added to the water delivered to the Long Island Canal as its headgate, and considered as decreed natural flow rights of the Long Island Canal. In effect, the water used by Mr. Jones at his pump site would be diverted from the Dry Bed at the site of his pump, but would be considered as part of the Long Island Canal headgate diversion. This request is to be valid for the current irrigation season only.

Dear Mr. Carlson:

The Long Island Canal has in the past supplied storage water to a pump operated by Wes DaBell of Lewisville drawing water from the Dry Bed / Great Feeder Canal in lieu of water owned by Mr. DaBell in the Long Island Canal. As the Long Island Canal does not have storage water to supply the pump this year, we are requesting that water drawn by Mr. DaBell's pump during the remainder of the current irrigation season (2004), be considered added to the water delivered to the Long Island Canal as its headgate, and considered as decreed natural flow rights of the Long Island Canal. In effect, the water used by Mr. DaBell at his pump site would be diverted from the Dry Bed at the site of his pump, but would be considered as part of the Long Island Canal headgate diversion. This request is to be valid for the remainder of the current irrigation season only.
