

MEMORANDUM

Date: December 9, 2019
To: Transfer 83735
From: Jeff Nield
Re: Review & Evaluation of Sufficiency of Information

This transfer proposes to change the point of diversion for water right 35-8843.

Authority to File:

Application Included a recorded warranty deed, conveying the existing place of use from the current water right owner to the applicants. Application included the filing fee to complete the ownership change. Bingham County tax parcel data shows the applicant as the owner of the property at the proposed point of diversion.

Water Right Validity:

Water right 35-8843 was licensed in 2002. 2015 and 2017 aerial imagery show consistent irrigation of the existing place of use. Forfeiture does not appear to be an issue.

Injury to Other Water Rights:

The transfer application was advertised and no protests were received. The watermaster was given the opportunity to comment on the proposed change as well and does not oppose the approval of the transfer. Injury to other water rights does not appear to be an issue.

Enlargement of Use:

The proposed change will not result in an increase in any of the elements of the water right. Enlargement does not appear to be an issue.

Local Public interest:

No issues identified.

Beneficial Use/Conservation of Water Resources:

No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
