1. Proof of application of water to beneficial use shall be submitted on or before **September 01, 2020.**
2. Subject to all prior water rights.

State of Idaho
Department of Water Resources
Permit to Appropriate Water
No. 96-9685

3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.
4. Prior to diversion of water under this right, the right holder shall permanently install and maintain a staff gage acceptable or other measuring device acceptable to the Department to determine the rate of reservoir fill.
5. Prior to diversion of water under this right, the right holder shall install a lockable device, subject to the approval of the Department, in a manner that will ensure passage of water through the reservoir when this right is not in priority.
6. Right 96-9685 authorizes a total annual storage volume of 4.1 acre-feet, consisting of 3.6 acre-feet to be used for the initial filling or carryover storage of the pond and 0.6 acre-feet for the replacement of losses caused by seepage and evaporation.
7. Water shall not be diverted from fire protection storage except to fight or repel an existing fire.

This permit is issued pursuant to the provisions of Idaho Code § 42-204.

Signed this 23rd day of December, 2019.
