

MEMORANDUM

Date: October 24, 2019
To: Transfer 83628
From: Cooper Fritz
Re: Review & Evaluation of Sufficiency of Information

This transfer rearranges the 55 acres authorized under four water rights remaining after approval of companion Transfer 83566.

Authority to File:

The applicant, Marilyn Mowrey-Lambert, has the authority to file. The applicant was the owner of the water right at the time of transfer submission. The applicant owns the land at the pre-transfer and post-transfer places of use.

Water Right Validity:

The water rights are valid for transfer. They were decreed in the SRBA in 2001. Review of post-decree aerial photography demonstrates consistent irrigation of the 55 acres at the proposed place of use.

Injury to Other Water Rights:

No other water rights will be injured as a result of this transfer. The acres are simply being rearranged within the same farm property of the original SRBA decrees. The Watermaster for Water District 34 was notified of the transfer and did not oppose it.

Enlargement of Use:

No enlargement of use will result from this transfer's approval. Rate, volume, nor irrigated acres are authorized to increase.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
