RE: Applications to lease water rights to the Water Supply Bank

Mr. Mc Stay,

It was a pleasure to speak with you today.

After our conversation, I did some quick research and found that you had four water rights 37-21829, 37-21831, 37-22197 and 37-22882 leased to the water supply bank and those leases will expire December 31, 2019. I am assuming that you want lease all four rights to the bank again. Depending on how they overlap, you may need to submit one form for each right. So I have enclosed four blank copies of the form. I have also included copies of the maps from your previously submitted lease applications. If you haven't changed your irrigation practices, then you can resubmit those maps.

I also confirmed that we have an IRS form W-9 for you already in our files. I have asked a financial specialist to reactivate it so you should not need to submit that form again.

Please send the completed lease forms to the State Office at the address in the heading of this letter.

I don't usually process water supply bank lease applications. Instead, it's likely that a technical records specialist will be assigned to complete that step.

If you have questions about the lease process please call us at 208-287-4800 and ask to speak to either Remington Buyer or Justin Ferguson. They are focused on water supply bank processes and can provide quicker service than I can.

Sincerely,

Michele D. Edl
