CONDITIONS OF APPROVAL

1. This right when combined with all other rights shall provide no more than 0.03 cfs per acre nor more than 4.5 afa per acre at the field headgate for irrigation of the place of use.
2. The period of use for the irrigation described in this approval may be extended to a beginning date of 3/1 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 3/15 is subordinate to all water rights having no subordinated early irrigation use and a priority date earlier than 11/26/2002.
3. Right holder shall comply with the drilling permit requirements of Idaho Code § 42-235 and applicable Well Construction Rules of the Department.
4. The Director retains jurisdiction of this right to require streamflow augmentation or other action determined to be appropriate to protect prior surface water or ground water rights. Such stream flow augmentation or other action will be required only upon a determination of need and applicability by the Director.
5. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.

Transfer Approval Notice

Dear Water Right Holder and other Interested Persons:

The Department of Water Resources has issued the enclosed approved Transfer of Water Rights. Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

The Transfer of Water Rights is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

If the transfer approval includes a condition requiring measuring and recording devices, such devices shall comply with specifications established by the Department. Detailed specifications are available on the Department's home page on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at (208) 334-2190.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Nick Miller', written over a printed name.

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

TO: Transfer no. 83728 file
FROM: Cody Parker
RE: Evaluation of the sufficiency of submitted information
DATE: November 19, 2019

Transfer application 83728 was submitted October 30, 2019 and proposed to add a point of diversion for a split portion of water right 63-31495. The right was split prior to transfer processing. The applicants' split portion is now numbered 63-34824. The proposed changes will be applied to the new split portion. The applicant was not required to amend the application.

The application indicates that the purpose of the transfer is to add a point of diversion. However, the information in the table in item B.3 describes only the new point of diversion, which appears to be an existing well on the property. I have taken this to mean that the applicants intend to change the point of diversion rather than add a second point. The wording and information on this application appears to have been copied from transfer application 83205. We interpreted 83205 as change the point of diversion. 83205 was approved on June 12, 2019; no petitions to clarify the intent were received.

Summary of Submitted Information

Authority to File:

The applicants are listed as John and Debra Meyer. The ownership change processed prior to transfer processing determined that the owners of the land are the same. Both owners signed the application. The applicants have the authority to file.

Water Right Validity:

The parent right, 63-31495, was decreed in 2009. The split portion of the right authorizes 3.5 acres of irrigation. Google Earth imagery from 2016 shows that almost the entire 5-acre parcel is irrigated. Absent any information to the contrary, the right is presumed valid.

Injury to Other Water Rights:

The well driller's report for the decreed point of diversion shows a water bearing zone of 332 to 342 ft below ground surface. However, the hole is only sealed the first 20 ft below the surface. Though there is an eight-inch casing in an eight-inch hole from 20 ft to 332 ft below ground surface, there is the possibility that the minimal space around the casing allows water from above to infiltrate into the well below.

The priority date for the right pre-dates concerns regarding the appropriation of shallow groundwater tributary to the Boise River. The decreed point of diversion construction shows that the right may have historically used water tributary to the Boise River. Therefore use of the new well, which is less than 200 ft deep should not change the effect of the diversion on existing rights including those junior to this right. No injury is anticipated.

Enlargement of Use:

The transfer does not propose any change to the diversion rate or volume, the number of irrigated acres, nor any unsubordinated change to the season of use. No enlargement is anticipated.

Local Public Interest:

None of the available information suggests conflict with the local public interest.

Beneficial Use/Conservation of Water Resources:

The application proposed beneficial use consistent with the conservation of water resources in Idaho.

The application is consistent with criteria of I.C. § 42-222 and should be processed.
