To: Transfer 83664 File
From: Benny Walker
Re: Transfer Synopsis

Application proposes transferring a 10.0 acre portion (0.19 cfs) of six groundwater irrigation rights from a farm located approximately 2.8–3.4 miles east and 4.3–6.5 miles south of Malta to commercial and stockwater use at an existing dairy located 3.4–3.6 miles east and 8.3–8.6 miles south of Malta. The application also proposes to update the legal description of the authorized point of diversion for the domestic and stockwater right currently utilized at the dairy site. A total of 0.43 cfs consisting of the irrigation portion (0.19 cfs) being transferred plus the domestic and stockwater right (0.24 cfs) will be diverted from the existing well at the dairy site.

The irrigation to commercial and stockwater use conversion was based on an acre to volume conversion factor of 2.64 af/acre taken from the University of Idaho precipitation deficit volumes averaged for alfalfa (5 acres, 3.15 af/a) and wheat (5 acres, 2.13 af/a) for the Malta area. This was based on information received from the USDA that alfalfa and wheat have been grown on the farm. The wells involved with the transfer are located outside of the ESPA smooth model boundary area so a ground water model analysis was not required. The transfer's proposed changes are within Water District 143, therefore watermaster comments will be sought.

RE: Transfer Application 83664

Mr. Luke Smith

Please find the enclosed transfer application 83664 that proposes to move a 10 acre portion, 0.19 cfs and 26.4 af of six ground water rights for irrigation use to a new location to be utilized as commercial and stockwater at an existing dairy. The application also proposes to include the existing domestic and stockwater right for the dairy, 43-10190 (0.24 cfs and 14.6 af), and to correctly identify the point of diversion for water right 43-10190.

The Department requires you to submit an agreement between you and J7 LLC, Jeffrey C. Johnson current owner of the water rights, which authorizes you to transfer his water rights to your dairy. This agreement also needs to stipulate how and when the ownership of the water rights will change from J7 LLC to Smith Brothers Jerseys LLC.

In addition the Department requires you to include with the transfer a copy of your dairy analysis/management plan to show the need for the additional water use. This analysis must show the current water use at the dairy along with the proposed water use.

Also the department requires a letter from the lien holder of each property involved, (J7 LLC and Smith Brothers Jerseys LLC), giving their consent of the proposed transfer application must be included with the transfer.

Please review the application for accuracy, then sign and date the applications and return all **original** pages and maps along with a filing fee of \$750.00 for processing the application to my attention.

Depending on how the ownership change for the water rights proposed to be transfer is executed, during the transfer or after the transfer is approved, an additional \$600.00 may be required.

If you have any question please feel free to contact me at your convenience.

Sincerely,
