Re: Application for Permit No. 67-15331

Dear Applicant:

You filed an application for a new water right from a regulated source within the Weiser River Water District. Regulated sources include tributary surface water and tributary shallow ground water (ground water above the first confining layer in the aquifer). If approved, your application would be a junior water right.

The Weiser River Watermaster regularly curtails junior water rights by June 15 each year. This is necessary under Idaho law to protect senior water rights when the water supply is not adequate to fill all rights at the same time.

This means your application, if approved, would include a condition of approval automatically curtailing your new use by June 15 of each year. This condition of approval balances protection of senior water rights with promotion of the maximum economic benefit of water resources.

To determine if you want to proceed with your application based on the above explanation, please complete and return the enclosed questionnaire. Your written reply must be received within the next thirty (30) days. Failure to make a timely response will cause your application to be voided. Re: Water Right Application Returned

Dear Applicant:

As I discussed with Todd the morning of November 8th, when filing an application for a domestic water right as you did, the place of use (POU) is limited to ½ an acre. The map submitted for your application predicts a 5.1 acre POU.

Two options were presented for resolving this issue:

- 1) Submit a new map that outlines a ½ acre POU.
- 2) Add an irrigation component to your application.
 - a. To pursue this option, your application will be return to you for the addition of the irrigation component. A \$50 fee would be incurred for the re-advertisement of your application per Idaho Code 42-221F.

Todd informed me today (11/12) via email of the decision to add an irrigation component to the application as a means of resolving this issue. Therefore, the original application and map are enclosed with this letter. Please be sure to amend items 5, 6 and 9 to ensure the application is complete and matches the POU outlined on the map when it is re-submitted to the Department.

Please make the necessary amendments to the original form and re-submit together with payment of the fee within the next thirty (30) days. This letter is an attempt to ensure that your application is complete in order to establish a priority date. You may receive future correspondence regarding more specific details of your application. IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please consult the IDWR website or contact this office at 208-334-2190 and ask for me if you have any questions about the necessary information or fee.
