MINIMUM REQUIREMENTS CHECKLIST

TO BE SUBMITTED WITH APPLICATION FOR TRANSFER

An application for transfer must be prepared in accordance with the minimum requirements listed below to be acceptable for processing by the Department. Incomplete applications will be returned. The instructions, fee schedule, Part 2A reports and additional Part 2B forms are available from any Department office or on the Department's website at idwr.idaho.gov.

Name of Applicant(s) Sunset Farm & Ranch LLC

Check whether each item below is attached (Yes) or not applicable (N/A) for the proposed transfer.

Yes N/A * Means the item is always required and must be included with the application.

- ☒ * Completed Application for Transfer of Water Right form, Part 1.
- ☒ * Signature of applicant(s) or applicant's authorized representative on Application for Transfer Part 1. Include evidence of authority labeled Attachment #3 (see below) if signed by representative.
- ☒ * Application for Transfer Part 2A. Attach a [Part 2A](#) report describing each water right in the transfer as currently recorded.
- ☐ ☐ Complete and attach an Application for Transfer [Part 2B](#) for each water right for which only a portion is proposed to be changed through this transfer application.
- ☒ * Application for Transfer Part 3A is always required (see Attachment #7a below); Parts 3B and 3C must be completed for transfer applications proposing to change the nature of use of the water right(s) or proposing changes to supplemental right(s).
- ☒ * Correct fee submitted with transfer application form. ([Fee schedule](#) is on website and instructions for application for transfer.)

Attachments to Application - Label each attachment with the corresponding number shown below as Attachment #1-10.

- ☐ ☒ #1 If the applicant is a business, partnership, organization, or association, and not currently registered in the State of Idaho as a business entity, attach documentation identifying officers authorized to sign or act on behalf of right holder. (See Part 1.)
- ☐ ☒ #2a Water Right ownership documentation if Dept. records do not show the applicant as the current water right owner. **
- ☐ ☒ #2b If the ownership of the water right will change as a result of the proposed transfer to a new place of use, attach documentation showing land and water right ownership at the new place of use. Include documentation for all affected land and owner(s). **
** Additional fee(s) required for water right ownership changes; see fee schedule.
- ☐ ☒ #3 Documentation of authority to make the change if the applicant is not the water right owner.
- ☒ ☐ #4 Power of Attorney or documentation providing authority to sign or act on the applicant's behalf. (See Part 1.)
- ☒ ☐ #5 If the transfer application proposes to change the point of diversion for a water right affecting the Eastern Snake Plain Aquifer (ESPA), attach the results of an ESPA analysis and a detailed mitigation plan to offset any depletions to hydraulically connected reaches of the Snake River. ESPA transfer spreadsheet and model grid labeled cells are available on the Department's website at idwr.idaho.gov/water-rights/transfers/resources.html.
- ☐ ☒ #6 Notarized statement of agreement or a statement on official letterhead signed by an authorized representative from each lien holder or other entity with financial interest in the water right(s) or land affected by the proposed transfer. (See Part 1.5.c.)
- ☒ * #7a Attach a map identifying the proposed point(s) of diversion, place(s) of use, and water diversion and distribution system details as described on the application. Include legal description labels. If only a portion of the right is proposed to be changed, identify the current location of the part of the existing right(s) proposed to be changed. (See Part 3A.)
- ☒ ☐ #7b If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System ([GIS](#)) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. If some or all of any right is leased to the Water Supply Bank, you must also show the the specific location and/or acres to be idled at the new, proposed place of use to satisfy lease requirements.
- ☐ ☒ #8a If the transfer application proposes to change the nature of use or period of use for one or more rights, provide documentation describing the extent of historic beneficial use for the water rights proposed to be transferred and document how enlargement will be avoided. (See Part 3B.) Additional fee required for proposed changes to nature of use; see [fee schedule](#).
- ☐ ☒ #8b If the transfer application proposes to change the place of use of a supplemental irrigation right, provide documentation regarding the historic use of the supplemental right(s) and availability or reliability of the primary right(s) being supplemented, both before and after the proposed change. (See Part 3C.)
- ☐ ☒ #9 Water Supply Bank information for all rights proposed for transfer and currently leased to the Bank. ([Attachment WSB](#))
- ☐ ☐ #10 Other. Please describe: _____

A. PURPOSE OF TRANSFER

- ☒ Change point of diversion ☒ Add diversion point(s) ☒ Change place of use
☐ Change nature of use ☐ Change period of use ☐ Other _____
- Is this a transfer for changes pursuant to Idaho Code § 42-221.0.8?
If yes, ☐ attach an explanation and any supporting documentation labeled as **Part 1A.2**.
- Describe your proposal in narrative form, including a detailed description of non-irrigation uses to justify amounts transferred (i.e. number of stock, etc.), and provide additional explanation of any other items on the application. Attach additional pages if necessary and label it **Part 1A.3**.
See additional page labeled Part 1A.3.

PART 1A.3

The first purpose of this transfer is to amend the points of diversion of some of the described water rights.

For the ground water rights, a well located in the NENESW, Sec. 25, 04N, 26E (the Middle Well) will be abandoned. The water right currently associated with this well (WR 34-2480B) will be amended to allow for the diversion of water under this right from two existing wells, one called the North Well (located in the SESENW, Sec. 03, 04N), 26E, and one called the South Well (located in the NWSWNW, Sec. 08, 03N, 27E). It is estimated that the South Well will be used to divert 34-2480B 80% of the time, while the North Well will divert this right 20% of the time. The determination of actual operation of the wells will depend upon a variety of operational factors based on the current water conditions, conveyance loss allocation in the Big Lost River Irrigation District system, etc.

For the surface water rights, a point of diversion located downstream from the Arco Diversion on the Big Lost River will be added to these rights. This additional point of diversion has been labeled "Quist Pump #1" by IDWR and is the current point of diversion for WRs 34-7149 and 34-7225, which are rights that are owned by Larry Quist. Quist Pump #1 is located on land owned by the Applicant, and the Applicant has an ownership interest in the pump station.

The second purpose of this transfer is to change the place of use for water rights that are owned by the Applicant (which are associated with property formerly owned by the Sunset Trust Organization) to create a permissible place of use of 612 acres. Irrigation within the permissible place of use will be limited to the irrigation of 442 acres.

The place of use amendment requires additional explanation. After many years of litigation between the Sunset Trust (established by Arthur and Lenora Quist) and Larry Quist, the court decreed that a 400-acre parcel that Larry Quist asserted he owned was owned by the Trust. However, the court determined that the water rights on the same 400-acre parcel were owned by Larry Quist. These rights are WRs 34-12421, 34-7181, 34-10680, 34-7149, and 34-13414. A map depicting the 400-acre parcel is attached to the next page. This means that the water rights and land ownership for the 400 acres are separate.

For 2020, Larry Quist has agreed to lease his water rights appurtenant to the 400 acres to the Applicant for use on the 400 acres. However, the lease is only for one year, and there is no guarantee that the water rights will be leased to the Applicant in future years. To ensure there are water rights authorized to irrigate the 400 acres, this transfer is necessary. **With this transfer, the Applicant's water rights and Larry Quist's water rights (WRs 34-12421, 34-7181, 34-10680, 34-7149, and 34-13414) are NOT to be combined or stacked in any way.** To ensure this combination or stacking does not occur, it is requested that a condition be included in the approval of this transfer that requires the Applicant to use WRs 34-12421, 34-7181, 34-10680, 34-7149, and 34-13414 on the 400 acres if such rights are legally available to the Applicant (i.e., leased) from the water right owner (Larry Quist) instead of using the Applicant's water rights.

Finally, while the water rights will allow for the irrigation of 442 acres within the 612-acre PPOU, for 2020, the Applicant intends to only irrigate 308 acres within the 612-acre PPOU to ensure they have enough water. Given that this will be the Applicant's first year operating the property as owners of the property and with a new irrigation system, their desire is to be conservative with the number of irrigated acres. For this reason, they are only proposing to irrigate 308 acres under their rights (rather than 442 acres), which are depicted on the map submitted with this transfer.

APPLICATION FOR TRANSFER OF WATER RIGHT PART 1 Continued

5. General Information:

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

Arco diversion is controlled by the BLRID and has a measuring device. Quist Pump #1 has a measuring device.
Ground water diversions already have measuring devices.

- b. Who owns the property at the point(s) of diversion? Applicant; 2ME Farms, LLC; Marilyn Lambert

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:
Applicant owns land at south well & Quist Pump #1; 2ME Farms owns land at north well and this is an existing well with long established easement; Lambert owns land at Arco diversion where BLRID has easement.

- c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts?

If yes, ☐ attach a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes on official letterhead signed by an authorized representative. Label it **Attachment #6**. List the name of the entity and type of lien: _____

It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. Any misrepresentation of legal encumbrance on this application may result in rejection of the application or cancellation of an approval.

- d. Are any of the water rights proposed for transfer currently leased to the Water Supply Bank?

If yes, ☐ complete Attachment WSB.

- e. Describe the effect on the land now irrigated if the place or purpose of use is changed pursuant to this transfer:

Place of use is being amended to create permissible place of use and to accommodate new pivots.

- f. Describe the use of any other water right(s) for the same purpose or land, or the same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) use:

On the south 400 acres owned by Applicant, water rights that are currently appurtenant to this land or use the same points of diversion are owned by Larry Quist (WR Nos. 34-7149, 34-7181, 34-7225, 34-10678, 34-10679, 34-10680, 34-12421, and 34-13414).

- g. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Attachment No. 5

ESPA Analysis and Mitigation Plan

MODELING EXPLANATION

The water right associated with the Middle Well (WR 34-2480B) is being amended to be authorized to be diverted from the North Well and the South Well. While the actual operation of the North Well and South Well is not known, it is estimated that the South Well will be used 80% of the time while the North Well will be used 20% of the time. The determination of actual operation of the wells will depend upon a variety of operational factors based on the current water conditions, conveyance loss allocation in the Big Lost River Irrigation District system, etc.

Two model runs were performed, the first where 20% of WR 34-2480B is moved to the North Well, and the second where 80% of the same water right is moved to the South Well. The model run outputs were then combined. The summary of these model runs is the first attachment, and the results conclude that no mitigation is required. The second attachment is the map showing the well locations and model cells that were used in the model. The third attachment contains the model run documents for the North Well. The fourth attachment contains the model run documents for the South Well.

Re: Application for Transfer for Sunset Farm & Ranch LLC Water Rights.

Dear Ladies and Gentlemen:

Enclosed for processing is an *Application for Transfer of Water Rights* for water rights associated with Sunset Farm & Ranch LLC. The transfer proposes to amend 12.59 cfs of water rights, based upon the Department's fee schedule, we have included a filing fee in the amount of \$1,460.00.

Please note that we have submitted *Notice of Change in Water Right Ownership* documents that are currently being processed by the Department, which split off a small 11-acre portion of some of these rights to Larry Quist. The remaining 358 are to be owned by the applicant.

We appreciate your attention to this matter. It is very important that the applicant have this transfer processed as soon as possible as its desire is to have these water rights amended and in place prior to the 2020 irrigation season. If you have any questions or concerns regarding this application, please do not hesitate to give me a call at (208) 523-0620. Additionally, once I know the IDWR agent assigned to this matter, I will email the relevant GIS shapefile.

Best regards,

Robert L. Harris

RE: Application for Transfer 83745

Dear Watermaster:

A copy of the above referenced application is enclosed. Please review the application, then complete the enclosed recommendation form and return it to this office within 21 days of the date of this letter.

IDWR's regional offices can finish reviewing an unprotested application as soon as the protest period has passed. Your prompt response to this request will ensure that your recommendation can be considered during regional review. If IDWR has not received your written recommendation within 21 days from the date of this letter, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Please contact this office if you have any questions regarding the application.

Sincerely,

Christina Henman
Administrative Assistant
