MEMORANDUM

Date: August 19, 2019
To: Transfer 83543
From: Shaun Maxey
Re: Review & Evaluation of Sufficiency of Information

Review & Evaluation of Sufficiency of Information
8/19/2019

The overall intent of this Transfer is to add a new Point Of Diversion (POD) that is upstream on Little Canyon Creek and closer to the Applicant's irrigation Place Of Use (POU) than the existing POD was used for parent Water Rights 85-4214 and 85-2118A. The Applicants intend to stop use of the existing POD if the Transfer is approved.

Authority to File: Idaho Department of Water Resources (IDWR) records indicate the Applicants are the current owners of the Water Right License involved in the Transfer.

Water Right Validity: (IDWR) records indicate that Water Rights 85-15799 and 85-17800 are in Active Status and no portion has been forfeited for non-use in the last five years.

Injury to Other Water Rights: The proposed Transfer utilizes a new POD on the Applicant's property as the proposed source. The new Point of Diversion (POD) is not close to PODs used by other parties or other Water Rights. Adverse impact to any existing Rights is unlikely.

Enlargement of Use: No enlargement of use is proposed.

Local Public Interest: No damage to the local public interest is likely to occur if the Transfer is approved. The POD will be reviewed as part of the Transfer review process by Idaho Department of Environmental Quality.

Beneficial Use/Conservation of Water Resources: The Transfer does not propose an increase in use that would adversely affect conservation objectives. The Idaho Water Resource Board will be notified of the Transfer Application because the Board holds Minimum Streamflow Right 85-15602 on Little Canyon Creek.

Effect on Economy of the Local Area: No net negative effect on the local economy is likely from the action proposed in the Transfer. The improvements to the water system indicated in the Transfer may improve the local economy by improving the value of the Applicants property.

Effect on Agricultural Base of the Local Area: The proposed action does not involve an increase in use of water for irrigation or other agriculture use and is not likely to negatively affect the agriculture base of the area.

Review of the Application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
