RE: Application for Permit 87-10888, Amendment Required

Dear Mr Loney,

During preparation of the permit approval document for the above referenced application it was discovered that the original application had an error in the Section numbers for both the Diversion Point (Item #4) and Place of Use (Item #9) descriptions (copy enclosed). Instead of Section 6 in the original application, the actual section is Section 5. IDWR strives to review and resolve these types of errors prior to advertising, but this particular one was not caught.

Enclosed is a draft Amended Application for Permit with the correct sections identified in both items. Please verify that the highlighted information is correct, sign the document and return to this office with a \$50 re-advertising fee (pursuant §42-221.F., Idaho Code).

Please contact us, by phone or email address listed above, if you have any questions. We look forward to receiving the ORIGINAL amended application by mail and will get it in the newspaper and through approval at the earliest opportunity.

Respectfully,

Douglas Jones
Northern Regional Manager
