Application for Transfer Water Right 23-4016

2013 Aerial Photo

0 200 400 Feet

MEMORANDUM

Date: October 30, 2019
To: Transfer 83720
From: Michael Holliday
Re: Review & Evaluation of Sufficiency of Information

The purpose of this transfer is to correct a clerical error in the POU legal description of right 23-4016. In the SRBA the place of use was correctly claimed in Range 41E, but was incorrectly recommended and decreed in Range 44E.

Authority to File:

The applicant is the current water right owner of record. County parcel data show the applicant as the owner of both the current and proposed places of use.

Water Right Validity:

Right no. 23-4016 was decreed in the SRBA in 2004. Review of post-decree aerial imagery shows campers parked in the campground. There is no evidence available to IDWR that would indicate five or more consecutive years of non-use. Forfeiture is not an issue.

Injury to Other Water Rights:

Other water rights will not be impacted by the proposed change. There will be no physical change to either the point of diversion or the place of use. Only the legal description of the place of use will change in order to correct the clerical error. Since it is clear that the proposed change will not adversely impact other water rights, this application will not require public notice. I discussed the transfer with the watermaster and he did not oppose its approval.

Enlargement of Use:

The proposed change will not result in enlargement because water use will not increase as a result of the transfer.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issues identified.

Effect on Economy the Local Area:

No issues identified.

Effect on Agricultural Base of the Local Area:

No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

MEMORANDUM

Date: October 30, 2019
To: Transfer 83720
From: Michael Holliday
Re: Legal Notice Not Required

Pursuant to Section 42-222, Idaho Code, the Department has discretion to provide public notice as deemed appropriate. The water right changes proposed through this transfer application do not appear to change the effect on the original or hydraulically connected water source or affect other water rights. Therefore, staff review of the transfer application found no cause to require public notice. This application will continue processing without advertisement and be forwarded for approval consideration.
