ADDITIONAL CONDITIONS OF ACCEPTANCE

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.

Dear Lessor:

The water rights listed above were leased into the Water Supply Bank (Bank) as of January 1, 2019, in accordance with the enclosed executed lease contract. **Your water rights, as described on the lease contract, are considered leased into the Bank and should remain unused until they are formally released from the Bank.** More information and further restrictions placed on your water rights while leased can be found in conditions of acceptance of the lease contract. Read the conditions of acceptance carefully.

The rights will automatically be released from the Bank on **December 31, 2023**, unless the rights are released earlier by the Water Resource Board (Board). On behalf of the Board, the Department of Water Resources (Department) can evaluate an early release of the lease contract upon your request. To release the water rights from the Bank prior to the release date, submit a written request on the *Request to Release a Water Right from the Bank* form. This form is available on our public website at www.idwr.idaho.gov. **Please note your water rights may not be available for immediate release if they have been rented or are being considered for a future rental. Furthermore, it is at the discretion of the Department whether or not a water right can be released early from a lease contract.**

If you have questions regarding this matter, please contact this office at 287-4800.

Contract 1037- water rights 63-5092 & 63-31970 have combined limits in the conditions. Together, the irrigation portions are limited to 16.5 acres, 0.33 cfs and 74.3 af but 63-31970 has a stockwater use so that added to the total.

Contract 716- water rights 63-5094, 63-32958 & 63-32960 have combined irrigation limits. They are limited to the irrigation of 339.7 acres, 6.63 cfs and 1606 af (this will be corrected on the last page of the contract). Two rights have stockwater. 63-5094(the stock is included in the irrigation rate) and 63-32960 (the rate is included in the irrigation rate but the volume is additive). Water right 63-10700 completely overlaps the other rights but has no combined conditions. To avoid enlargement concerns, we had to limit the number of acres rentable.

What discrepancies did you find?

Jean,

Not sure how you calculated acres for contracts 1037 and 716?. I combined the amounts we separately submitted for Cloud Berry and LCA and found numerous discrepancies. Can you let me know? Thanks Jean.

Narrative: The Department received these applications on December 31, 2018. An ownership change from Legacy Community was also received on the same day requiring a split of the water rights. The applicant wanted to place a portion of the rights in the Bank but after further discussion with Lori Graves, SPF Engineering, it was determined the applicant wanted to place the entirety of all rights in the Bank. There is authorization from other entities included with the applications that authorize Cloud Berry protect the water on their behalf. These rights were decreed in 2007 except 63-10700, which was licensed in 1994. Water right 63-5094 & 63-32960 were placed in the Bank in 2008, 63-10700 & 63-32958 in 2015. Forfeiture is not an issue. The place of use will continue to receive water from Drainage District No. 2, New Dry Creek Ditch co. and/or Middleton Irrigation District/Middleton Mill Ditch Co. and overlaps with City of Eagle municipal right 63-12448 & 63-11413. The other rights are groundwater. A limit was added to the rentable portion on the lease to stay within the 4.5 af per acre limit and to avoid enlargement. Water rights 63-5094, 63-32958 & 63-32960 are limited to the irrigation of 339.7 acres and 1606.0 af for irrigation purposes. The entirety of Water rights 63-5094, 63-32958 & 63-32960 are limited to 6.63 cfs, this limit includes stockwater. The only right that has additional volume for stockwater is 63-32960. Diversion rate for stockwater for water rights 63-5094 & 63-32960 is included in the irrigation rate. Water right 63-10700 is not included in the combined conditions but completely overlaps the three water rights. Therefore, a combined limit will be placed on the rentable portion to avoid enlargement of the rights if rented. The source for water right 63-32958 is wastewater tributary to Boise River and is the only right within WD 63.

Subject: ***Cloud Berry Water Bank Lease Applications (7)***
 Legacy Community Association Ownership Change Notice
 Legacy Community Association Water Bank Lease Applications (5)

Dear Jean,

Enclosed on behalf of Cloud Berry, LLC and Legacy Community Association Inc., are applications to lease portions of water rights 63-5092, 63-331970, 63-10700, 63-32958, 63-32960 and, in the case of Cloud Berry, all of rights 63-5094 and 63-10557 to the water supply bank that will supersede applications previously submitted by Cloud Berry.

The water rights listed above are currently in the name of Cloud Berry LLC, however due to recent development, Cloud Berry no longer owns all the property where the water rights are appurtenant. As a result, the water being leased to the bank for Cloud Berry represents water appurtenant to:

1. parcels owned by the developer; either Cloud Berry LLC, Brahma LLC, White Sturgeon LLC, or Horseshoe Flats LLC (all affiliated)
2. parcels where developer has retained the appurtenant water on the warranty deed

Supporting documentation for items 1 and 2 includes:

Attachment A – IDSOS annual statements for the Cloud Berry, Brahma, White Sturgeon and Horseshoe Flats developing companies. Brahma, White Sturgeon and Horseshoe Flats are managed by Developers Services Inc., for which Brian McColl is President and has provided a statement authorizing Cloud Berry to lease the water appurtenant to the property owned by Brahma, White Sturgeon and Horseshoe Flats into the bank. The manager for Cloud Berry is Justin Martin, who signed the lease applications.

Attachment B – warranty deeds for property owned by developers Brahma LLC, White Sturgeon LLC, or Horseshoe Flats LLC.

Attachment C – warranty deeds for sold parcels specifying water was retained by the developer. Note, water will continue to be retained by the developers on all future parcel sells.

Attachment D – spread sheet indicating parcels/owners affiliated with the water being leased to the bank by Cloud Berry LLC.

Legacy Community Association Inc. (LCA) is the homeowners association for part of the Cloud Berry development. Cloud Berry did not retain water rights from the LCA parcels. Rather than quitclaim the appurtenant water back to Cloud Berry, LCA would rather submit their water right portions to the bank in their name. To do so requires a *Notice of Change in Water Right Ownership*, which has been included in this application package as Attachment F. The Director of LCA is Justin Martin, who signed the LCA lease applications.

Attachment E – spread sheet indicating parcels owned by LCA with appurtenant water being leased to the bank by LCA.

Attachment F – *Notice of Change in Water Right Ownership* and associated warranty deeds for LCA's water right portions being leased to the bank.

Following Attachment F are the lease applications, W-9 forms and all-inclusive map. GIS analysis tools were used to determine the acre portions of each water right appurtenant to Cloud Berry and LCA affiliated properties. Split trees and grid tables have been included with each application showing how the associated leased flow rates and volumes were determined.

The fees for the enclosed Cloud Berry applications have been paid with the previous submittal. The filing fees for LCA five applications is \$1250 (\$250/app). The filing fees for LCA's ownership change notice is \$500 (\$100/water right split). Check number 1680 is enclosed for the \$1750 total amount due. Thanks for your help Jean. Please let me know if there are any questions.

Subject: Lease Applications (Water Rights 63-32958, 63-32960, 63-5094, 63-10700)

Dear Jean,

Per our telephone discussion and your instruction, enclosed on behalf of Cloud Berry, LLC, are applications to lease water rights 63-32958, 63-32960, 63-5094 and 63-10700 to the water supply bank that will supersede applications previously submitted by Cloud Berry. These rights are currently in the bank under Contract Nos. 76 and 78 and are set to be released 12/31/2017. The Applicant wishes to keep the water in the bank for another five years. Cloud Berry recently submitted a lease package that included these four rights along with water rights 63-31970 and 63-5092 that are currently leased through 2018 under contract 216 and are not due for renewal at this time. A check for \$1,500 was included with the submittal. Because the four above water rights are stacked, the total filing fee due is \$500. As we discussed, this fee will be deducted from the \$1,500 previously paid and the \$1000 balance will be refunded to Cloud Berry.

Thanks for your help Jean. Please let me know if there are any questions.
