APPLICATION FOR PERMIT
To appropriate the public waters of the State of IdahoRECEIVED
SEP 16 2019Ident. No. 65-23851Name of applicant(s) Idaho Power Phone (208) 388-2602Name connector (check one): ☐ and ☐ or ☐ and/orMailing address C/O Kresta Davis Butts, P.O. Box 70 City BoiseState ID ZIP 83707 Email kdavis-butts@idahopower.com2. Name of representative, if any John Simpson, Barker Rosholt & Simpson LLP Phone (208) 336-0700Mailing address 1010 W. Jefferson St, Suite 102 City BoiseState ID ZIP 83702 Email jks@idahowaters.coma. ☐ Send all correspondence for this application to the representative and not to the applicant OR☒ Send original correspondence to the applicant and copies to the representative.b. ☐ The representative may submit information for the applicant but is not authorized to sign for the applicant OR☒ The representative is authorized to sign for the applicant. Attach a Power of Attorney or other documentation.3. Source of water supply Ground Water which is a tributary of _____

4. Location of point(s) of diversion:

Tw	Rge	Sec	Govt Lot	1/4	1/4	1/4	County	Source	Local name or tag #
17N	03E	3			SW	SW	Valley	Ground Water	

5. Water will be used for the following purposes:

Amount 0.075 for irrigation purposes from 4/15 to 10/31 (both dates inclusive)
(cfs or acre-feet per year)Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)6. Total quantity to be appropriated is (a) 0.075 cubic feet per second (cfs) and/or (b) 10 acre-feet per year (af).

7. Proposed diverting works:

a. Describe type and size of devices used to divert water from the source. Water is diverted via pump from an existing water well.b. Height of storage dam N/A feet; active reservoir capacity N/A acre-feet; total reservoir capacity N/A acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 12. For dams 10 feet or more in height AND having a storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☒ Noc. Proposed well diameter is 8" inches; proposed depth of well is 175 feet.d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☒ Noe. If well is already drilled, when? yes; drilling firm Dennis Phipps Well Drilling Inc;
well was drilled for (well owner) Idaho Power (see attached well log); Drilling Permit No. 852268 D0053011Received by [Signature] Date 9/16/19 Time 2:10 Preliminary check by [Signature]
Fee \$ 100 Receipted by [Signature] Receipt No. C101732 Date 9/16/19

8. Description of proposed uses (if irrigation only, go to item 9):
- Hydropower; show total feet of head and proposed capacity in kW. _____
 - Stockwatering; list number and kind of livestock. _____
 - Municipal; must complete and attach the Municipal Water Right Application Checklist.
 - Domestic; show number of households _____
 - Other; describe fully. _____
9. Description of place of use:
- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
 - If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
17N	03E	3											2.5						2.5

Total number of acres to be irrigated: 2.5

10. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? Water Right 65-23311 will irrigate 0.5 acres of the 3 acres of total irrigation at the site. This new right will share a common PPU with 65-23311. Idaho Power also has shares in the Lake Irrigation District that are not currently being delivered to the property.
11. a. Who owns the property at the point of diversion? Idaho Power
- b. Who owns the land to be irrigated or place of use? Idaho Power
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: _____
12. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. This right will be used in conjunction with water right 65-22311 to irrigate approximately 3 acres of landscaping around the Idaho Power Long Valley Operations Center. Total yearly diversions for the combined rights will not exceed 12acft/yr. Part of the area being irrigated are isolated trees and vegetation located on parking lot islands and small areas around the building that are irrigated with bubblers or drip irrigation.
13. Time required for completion of works and application of water to proposed beneficial use is 5 years (minimum 1 year).
14. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map or maps clearly identifying the proposed point of diversion, place of use, section #, township & range. The map scale shall not be less than two (2) inches equal to one (1) mile.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

Application For Permit No. 65-23851

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the STAR NEWS on 11/7/2019 and 11/14/2019. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Jean Hersley

KRESTA DAVIS BUTTS- IDAHO POWER

MEMORANDUM

Date: October 17, 2019
To: WR No. 65-23851
From: Scott Storms
Re: Pre-Advertisement Application Review

Applicant

Application for permit was submitted by Idaho Power C/O Kresta Davis Butts, on September 16, 2019. The application was returned on September 17 because item 5, Nature of Proposed Use was not completed. The complete and acceptable application was received on September 23, 2019 and that date was set as the priority date.

John Simpson of Backer Rosholt and Simpson LLP is listed as representative on the application and there was a notarized power of attorney statement submitted with the application, authorizing John Simpson to sign for all application process. The power of attorney was signed by Sarah W. Higer, Senior Counsel of Idaho Power, and the permit application was signed by John Simpson.

Source & Diversion System

The source is listed as groundwater from an existing well, tag I.D. D0053011. The application states it is an 8" casing well, drilled to 175 feet. The drillers log was submitted with the application. That log confirms it is 175 foot deep, however it also states an 8" casing down to 144 feet, and a 5" lining from 144 to 175 feet. This well is also the source for permit 65-23311, also held by Idaho Power. The drillers log well test showed a discharge of 150 gpm or 0.33 cfs. Permit 65-23311 is for a total of 0.36 cfs and this application is for 0.08 cfs. The application states the pump is already in place and that part of the irrigation will be for a bubbler and drip system for trees and vegetation around the building and isolated areas of the parking lot.

Water Use (can be combined with previous section)

The use is for irrigation of 2.5 acres and will be used in combination with 65-22311 to irrigate a total of 3 acres. Permit 65-23311 does include 0.02 cfs for irrigation of 0.5 acre. The irrigated area is described as landscaping around the Idaho Power Long Valley Operations Center, and that part of the irrigation will include isolated trees and vegetation located on parking lot islands and small areas around the building.

RE: Application for Permit

Dear Applicant(s):

The Department of Water Resources has received your water right application. Preliminary review of the application indicates that it is incomplete and cannot be accepted for processing. We are returning your application to allow you to complete the necessary items. The required information is described below.

- Item # 5, the Nature of Proposed Use was not provided. Please add the nature of use, initial and date the change and return to the Department.

Please provide the requested information within 30 days or your application will be returned unprocessed and a refund will be requested. You can provide the information by mail to: 322 E FRONT ST, STE 648, PO BOX 83720, BOISE, ID 83720-0098.

Please feel free to contact me at (208) 287-4942 if you have any questions.

Sincerely,

Jean Hersley
