RE: Transfer 82640 (Aston)

Dear Parties:

Enclosed is a copy of an Amended Preliminary Order Approving Transfer. I thought it might save you some time if I provided a summary of the changes made to the August 5th Preliminary Order.

1. Paragraph added to Procedural History section, describing the appeals filed with the Director and the remand to the hearing officer.
2. Changed first sentence of Analysis section to remove inaccurate statement.
3. Extended underline on page 17 to include the phrase "in the two wells."
4. Changed last part of section titled Authority to Transfer Water Right 13-4120 to remove inaccurate statement.
5. Edited language of forfeiture analysis for section titled Acres in Section 9.
6. Edited language of forfeiture analysis in section titled Summary of Irrigated Acres.
7. Edited paragraph discussing specific capacity of Spradlin Well to correct an error.
8. Revised Conclusions of Law section.
9. Corrected page 1 of Transfer Approval (summary of water rights prior to transfer).

Please be aware, the issuance of an Amended Preliminary Order restarts the appeals process. The deadlines for filing a petition for reconsideration (to the hearing officer) or exceptions (to the Director) are described on the enclosed explanatory information page. The previously-filed exceptions were rendered moot when the case was remanded to the hearing officer. Please feel free to contact me if you have any procedural questions.

Sincerely,

A handwritten signature in black ink, appearing to read 'J. Cefalo', written over a horizontal line.

James Cefalo
