Phone: 208-312-0045

Note: If you are not listed as the current owner of the water right in the Idaho Department of Water Resources' records, you must include evidence of ownership of the water right (or portion of the water right) with this form. Evidence may include a warranty deed, quitclaim deed, court decree, contract of sale, etc.

I am the current owner of all, or X part of, the water right described in the Idaho Department of Water Resources' records as Water Right No. 45-14501.

I hereby abandon X all, or part of the water right designated above. This abandonment is intentional and voluntary. I recognize that this abandonment permanently eliminates the right to divert and use water under the water right designated above.

If this abandonment applies to a portion of the water right, please indicate which part is abandoned by describing the diversion rate, annual diversion volume or storage volume, and place of use (include acres if the use is irrigation) and by attaching a detailed map identifying the specific locations.

The portion being abandoned is appurtenant to the Helen Sorensen Trust property located in T12S, R24E, Sect. 12, SESW (4.0 acres) and SWSE (33.0 acres). This covers 37 acres of the 73 acre right, and 0.31 cfs of the flow rate. The abandoned portion of 45-14501 is numbered 45-14529.

Re: Change in Water Right Ownership: 45-14501 (Split into 45-14501 and 45-14529), and 45-10547

Dear Helen:

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of a portion of the above referenced water right(s) to you. The Department has modified its records based on the information received and has enclosed a computer-generated report for you. In addition, the portion of right 45-14501 conveyed to you (45-14529) has been abandoned per your request. Right 45-10547 is the domestic which was not split and simply conveyed into the name of the Trust.

Your portion of each water right(s) has a specified point of diversion, nature of use and place of use. If you plan to change the authorized point of diversion, nature of use, or place of use, including adding a new point of diversion, you must file an Application for Transfer of Water Right. If you do not plan to change any elements of your water right, then no further action is required at this time.

The portion of the water right retained by the original right holder retains the original water right number. The Department is sending the original right holder a copy of this letter and a computer-generated report showing the changes to the original water right.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 293-9909.

Sincerely,

Jim Bitzenburg
Senior Water Resource Agent
