

MEMORANDUM

October 19, 2019

Water Right: 87-10100

Author: Angie Grimm

Subject: License Review - Combined Limit Condition

During final review of the draft license, it was determined a combined limit condition for rights 87-7197 and 87-10100 was appropriate for the domestic use. Both rights authorize internal domestic use for Lot 5, Blk 2 of Canterwood Estates subdivision. Although the permit holder indicated the system used for permit 87-10100 is separate from the system used for 87-7197, both rights allow for use of the same home. Only one home is developed on Lot 5, Blk 2. Therefore, a limitation on the volume and number of homes authorized is appropriate.
