Conditions of Approval:

1. The applicant is responsible to ensure that water pumped under Transfer No. 4137 does not cause the water level in any irrigation well to exceed the reasonable pumping level, unless the holder of the prior water right receives reasonable compensation or mitigation for the reduced water level caused directly or indirectly by the withdrawal of water under Transfer No. 4137.
2. W51 Use of this right is combined with water from Nampa Meridian Irrigation District.
3. T08 Failure of the right holder to comply with the conditions of Transfer No. 4137 is cause for the Director to rescind approval of the transfer.
4. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
5. The right holder is not authorized to increase the horsepower on the existing wells over that already installed and operating during the 1992 irrigation season.
6. Prior to diversion of water in 1993, a measuring device of a type acceptable to the

Proof Report

Department shall be installed and maintained in conjunction with each well that diverts water under these water rights. In addition, the water right holder shall provide to the Department a plan limiting diversions to no more than 0.02 cfs per acre for irrigation purposes on irrigated land from all sources. This plan must be approved before pumpage under Transfer No. 4137 is authorized.

7. The applicant is responsible to ensure that water pumped under Transfer No. 4137 does not directly, as determined by the Director, cause the water level in any domestic well drilled prior to March 29, 1978, to be lowered so as to require modification to the well or pumping system or to cause the water level in any other well having a prior right to exceed a reasonable pumping level, unless the applicant provides reasonable compensation or mitigation, as determined by the Director, to the prior water right holder for the reduced water levels.
8. K06 This right is limited to the irrigation of 79.6 acres within the place of use described above in a single irrigation season.
9. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
10. Water diverted under these water rights is to be used for supplemental purposes only, in connection with the primary surface water rights from the Boise River. The surface water rights dedicated to this land must be utilized to their full extent during any year that these supplemental ground water rights are utilized.
11. W54 Use of this right is combined with water from Settlers Irrigation District.
12. Well no. 5, located within the NWNW, Sec. 35, Twp. 4N, Rge. 1W, B.M. shall be either shallower than 100 feet, or cased and sealed to a minimum depth of 200 feet. The motor installed for diversion from this well shall be limited to a 15 horsepower rating.
13. This right is a split from former right 63-8825 .
14. Approval of Transfer No. 4137 does not grant any right-of-way or easement across the land of another.
15. R32 This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for irrigation of the lands below.
16. S39 The use of water for irrigation under this right may begin as early as March 1, provided other elements of the right are not exceeded. The use of water before March 15 under this remark is subordinate to all water rights having no subordinated early irrigation use and a priority date earlier than the date a partial decree is entered for this right.
