Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of a portion of the above referenced water right(s) to you. The Department has modified its records based on the information received and has enclosed a computer-generated report for you.

Your portion of each water right(s) has a specified point of diversion, nature of use and place of use. If you plan to change the authorized point of diversion, nature of use, or place of use, including adding a new point of diversion, you must file an Application for Transfer of Water Right. If you do not plan to change any elements of your water right, then no further action is required at this time.

The portion of the water right retained by the original right holder retains the original water right number. The Department is sending the original right holder a copy of this letter and a computer-generated report showing the changes to the original water right.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact IDWR at (208) 334-2190.

Sincerely,

Chad Jones
Technical Records Specialist 1

Dear Mr. Felix and Mr. Ensign,

The Idaho Department of Water Resources (IDWR) is reviewing your transfer application to add a point of diversion (POD) from ground water for property owned by MDLN LLC. Additional information is needed to process your proposal. Department staff are not allowed to make these changes, so I have attached a copy of your original application and a letter describing the needed amendments to the transfer application.

In addition, you paid \$25 for the ownership change, however since you are splitting two water rights 63-33383 and 63-32919 there is a charge of \$100 per split right since splits require significantly more time to process. You will need to submit an additional \$175 to cover the cost of the ownership change splits.

Please let me know if you have any questions regarding the content of this email. I can be reached by phone at 208-334-2190 or by email at allen.bradbury@idwr.idaho.gov.

Respectfully,

Allen Bradbury

RE: ownership change for water Right No's: 63-32919 & 63-33383

Dear Applicants,

The Department of Water Resources acknowledges receipt of your request for an ownership change on the water right mentioned above. However, after reviewing the request, it was determined the form was not completed and additional documentation is needed to complete this request.

Please complete and submit the requested documentation listed below:

- The filing fee for a Notice of Change in Water Right Ownership is \$25.00 per undivided water right or a fee of \$100.00 per split water right. There are two water rights on your notice and only \$100.00 was received. Please submit the remaining \$100.00 fee in order to process the application.

Because the Department cannot process this request at this time, we will hold any action on your notice pending receipt of the necessary documentation. If we do not receive the required documentation within 30 days, the notice will be returned and will not be processed.

Thank you for your cooperation. If you have any questions please contact this office at 208-334-2190.

Sincerely,

Allen Bradbury
