Subject: Re: Clarification on Tributary for Water Right Application for Permit

Dear Shaun, the source of water supply on line 3 of the application for permit is a "Spring". The spring from the water flows into the ground and not into a stream.

Sincerely,

Douglas Blevins & Edie Buchanan

Please let us know if you need additional information.

I have a question on the tributary portion of line 3 on your Application for Permit. The portion of line 3 about a Tributary was left blank.

I believe you said, at my office last week, that water from the spring on your Latah County parcel just sinks into the ground instead of flowing into a stream that leaves the property. Please contact me at (208) 762.2816 as soon as possible if this is not the case.

Thanks,
