The attached Proof Due Notice was sent to you at the address on record with the Department on September 30, 2019 and returned on October 10, 2019.

It appears you no longer own the property appurtenant to these water permits. If that is the case, an assignment of permit has been attached for you to assign the permits to the new owner. The water permits need to be assigned and notarized since they are considered personal property and were not conveyed with the sale of the property. The new owner will be responsible for submitting proof of beneficial use.

Or you may submit proof on the water permits and the new owners can file a Change in Water Right Ownership to update the ownership of the water rights to their name.

If no action has taken place by December 1, 2019, these permits will lapse and no longer be valid.
