1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. 6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. The unleased portions of water rights 34-2383, 34-14522, 34-14523, 34-14524 when combined shall not exceed a total diversion rate of 2.98 cfs and the irrigation of 132.1 acres.
13. Water is delivered through the 3-in-1 Ditch.
14. Use of water under these rights will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 34.
15. The unleased portion of water right 34-14522 is limited to the irrigation of 93.7 acres within the authorized place of use in a single irrigation season. The unleased portion of water right 34-2383 is limited to the irrigation of 38.4 acres within the authorized place of use in a single irrigation season. The unleased portion of water right 34-14524 is limited to the irrigation of 57.4 acres within the authorized place of use in a single irrigation season.

Narrative: The Department received these applications on December 31, 2018. Additional fees were needed, requested and received by January 9, 2019. The applications were signed by June Stevenson, current owner. She wishes to place 2 acres of each right in the Bank. These 2 acres are a pivot corner. After further review, it was determined that a portion of water rights 34-14522 & 34-14524 would also need to be leased to the Bank due to overlapping conditions. The Department received those applications on Aug. 19, 2019. The total number of acres for all 4 rights is 2.0 acres. Water right 34-2383 & 34-14522 were decreed in 2002 and 34-14523 & 34-14524 were decreed in 2001. Aerial photography is inconclusive but it appears some irrigation took place in May and June of 2017 & 2018. Forfeiture is not an issue. Water right 34-14523 & 34-14524 are delivered through the 3-in-1 Ditch. Consent was given by the Big Lost Irrigation District. No holdback was requested. These rights are currently within WD 34.

**RE: APPLICATION(S) TO SELL LEASE A WATER RIGHT TO THE WATER SUPPLY BANK
FOR WATER RIGHT NO(S). 34-2383 & 34-14523**

******TIME SENSITIVE RESPONSE REQUIRED******

Dear Lessor:

The Department of Water Resources received applications to lease a portion of water rights 34-2383 & 34-14523 to the Bank on January 9, 2019. The initial review found that you will also need to lease a portion of water rights 34-14522 & 34-14524 to the Bank to avoid enlargement due to diversion rate and acre limits between these four water rights. In order to idle 2 acres, the proportional number of acres per water right to lease would be the following:

- 0.6 acres from 34-2383
- 1.4 acres from 34-14522
- 2.0 acres from 34-14523
- 0.9 acres from 34-14524

The diversion rate and volume will need to be calculated proportionately for each water right.

You can find the applications on the Department's website www.idwr.idaho.gov. No additional fees will be required since water rights 34-14522 & 34-14524 overlap with water rights 34-2383 & 34-14523.

Because the Department cannot process the applications to lease these water rights without the information requested, we will hold any action on your applications pending receipt of the necessary information. If we do not receive the necessary information within **30 days** these applications will be denied because they cannot be processed without the requested information.

If you have any questions or no longer have an interest in the water right, please contact me at (208) 287-4910.

Sincerely,

for
Clay Webster
Water Rights Supervisor

Re: June Stevenson

Dear Ms. Condon:

June Stevenson submitted lease applications for water rights 34-14048, 34-14050 and 34-14052 and 34-2383 and 34-14523. A payment of \$500 was submitted to IDWR for processing. However, an additional \$500 processing fee is required because of the stacked nature of the water rights. The additional \$500.0 is being submitted at this time.

Please copy our office on all correspondence regarding these applications.

Re: June Stevenson

Dear Mr. Buyer:

June Stevenson desires to lease a 7.3 acre portion of water rights 34-14048, 34-14050 and 34-14052 and a 2.0 acre portion of water rights 34-2383 and 34-14523. The 7.3 and 2.0 acre areas are identified on the attached aerial maps. Both of these areas have been irrigated in the last five years. It is proposed to lease these portions of irrigation water into the Idaho Water Supply Bank for the 2019 irrigation season.

Water rights 34-2383 and 34-14523 share points of diversion and irrigation place of use with water rights 34-14522 and 34-14524. The ground water rights 34-2383 and 34-14522 have additive acre limits that equal the total allowed 134.1 acres. Only 34-2383 was identified to be leased into the Idaho Water Supply Bank because of this reason. Surface water right 34-14523 is limited to 134.1 acres of irrigation and surface water right 34-14524 is limited to 58.3 acres of irrigation. Only a 2.0 acre portion of 34-14523 is being leased into the Idaho Water Supply Bank because the 2.0 acre portion does not overlap unto the 58.3 acres allowed by 34-14524.

Please copy our office on all correspondence regarding these applications.

Sincerely,

Greg Sullivan, M.S., Engineer
