$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation season}) \times 1.9835 =$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} =$$

2. Volume Calculations for Other Uses: Indoor and outdoor use for domestic. See Application processing memo # 22.

G. NARRATIVE/REMARKS/COMMENTS: ArcMap and Bonner County Robert Gasser & Janice L Gasser as current owner but the parcel information hasn't been updated since 2018. An email was sent to Mr. Gasser asking about a structure. He sent a picture of the house (attached). There are too many trees in the aerial photography to see if any irrigation is taking place but will give the benefit of doubt.

Jean,

The home was constructed this past year. Attached is a picture of us on our front deck at the residence. There is also a trailer parked on the lot as well.

Let me know if this is sufficient or you need further info.

Mr. Gasser,

The Department of Water Resources is in the process of licensing water right permit 96-9697.

While looking at aerial photography and Bonner County records during the review, it does not appear there is a home on the property appurtenant to this water right. Do you have a trailer or RV parked on the lot? How has the water been beneficial used? If the Department can't find beneficial use, the permit could be voided.

If the Department does not receive a response within 30 days, steps will be taken to void the permit. You can provide the requested information by responding to this email. If you have any questions, please contact me. Thank you.
