**Re: Request to Remove the Point of Diversion from Groundwater Rights Owned by
Mud Lake Water Users, Inc.**

Dear James:

Mud Lake Water Users, Inc. ("MLWU") owns twenty-seven (27) groundwater rights which are summarized, along with MLWU's surface water rights, on the attached spreadsheet. The groundwater rights have a described point of diversion for a well located in the NWSESE of Section 26, Township 7N., 35E., in Jefferson County. This point of diversion has been labeled as the Holley No. 1 Well. A map depicting the location of this well is enclosed with this letter. This well was operational in the 1980s and 1990s, which was why it was included in the Snake River Basin Adjudication claims and was eventually decreed in the Snake River Basin Adjudication. However, because the well is no longer operational, through this letter, we hereby request that the Department remove this well location from all of MLWU's groundwater rights. We understand from prior discussions with you that a transfer application is not necessary to process such a request, and that the request can be made by letter. If our understanding was incorrect in any way, please let us know. We appreciate your attention to this matter.

Best regards,

Robert L. Harris
