EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

To: Transfer 83450 File
From: Benny Walker
Re: Allowable Volume (Domestic/Stockwater)

The total volume of water allowed under water rights, 47-7103, 47-17284, and 47-12349, was based on a total of 13,000 gpd (14.6 af) for the three water rights. The department's standards of 0.6 af per home, for three homes per decreed right 47-7103, and 2 af for 0.5 acres of irrigation (4 af/a) results in a total of 3.8 af for domestic uses. Subtracting this 3.8 from 14.6 allows for 10.8 af for stockwater.

MEMORANDUM

Date: September 18, 2019
To: Transfer 83450 File
From: Benny Walker
Re: Evaluation of Sufficiency of Information Submitted

Application proposes transferring a 3.3 acre portion (0.06 cfs) of three groundwater irrigation rights from a farm located approximately 7.2 - 8.0 miles south and 0.75 - 1.5 miles west of Kimberly to commercial and stockwater use at an existing dairy located 2.7-2.9 miles west and 3.2-3.4 miles south of Kimberly. The application also proposes adding existing wells as authorized diversion points for the domestic and stockwater rights currently utilized at the dairy site. The transferred portion (0.06 cfs) and the existing domestic and stockwater rights (0.12 cfs) for a total of 0.18 cfs, will be diverted from three existing wells at the dairy site.

The irrigation to commercial and stockwater use conversion was based on an acre to volume conversion factor of 3.02 af/acre taken from the University of Idaho precipitation deficit volumes for grass pasture for 3.3 acres for the Twin Falls area. This was based on information received from the USDA that grass pasture was being grown on the farm. The wells involved with the transfer are located outside the ESPA smooth model boundary area so a ground water model analysis is not required. The three-groundwater irrigation rights, 47-17555, 47-17560 and 47-17565 involved with the transfer all include a condition indicating that they are combined with Twin Falls Canal Company water. However, the application includes a letter from the Twin Falls Canal Company indicating the limited number and specific locations of shares on the original place of use. Note that the three groundwater rights, involved with the transfer allow for the total irrigation of 166.4 acres and that the letter from the canal company indicates that there are only 50 shares of water on the 166.4 acres. Furthermore, the canal company letter also identifies the specific lands that the 50 shares are appurtenant to. Note that the 3.3 acre portion of the three groundwater rights proposed to be transferred does not overlap the specific lands that the 50 canal company shares are appurtenant to. It should also be noted that the Department has previously approved similar types of transfers in the past involving portions of these same three groundwater rights.

- **Authority to File:**
Applicant is listed as current owner on IDWR records for rights 47-12349, 47-17284, and right 47-7103. The application includes a copy of a contract for sale between the applicant and the current owner of the rights being transferred, agreeing to sell the portion of the water rights being transferred to the applicant. The application also includes a copy of a warranty deed showing that the applicant owns the proposed place of use.
- **Water Right Validity:**
Rights 47-12349, 47-17284 were decreed in 2010 and right 47-7103 was decreed in 1999. The rights proposed to be transferred were decreed in 2009 and aerial photography indicate they have been used in recent years.
- **Injury to Other Water Rights:**
None anticipated. Transfer will result in a reduction in the maximum allowed diversion volume.
- **Enlargement of Use:**
None anticipated.
- **Local Public Interest:**
Application was be subject to public notice and protest. No protest were received.
- **Beneficial Use/Conservation of Water Resources:**
Proposed uses are recognized as beneficial uses of water.
- **Effect on Economy of the Local Area:**
No issues anticipated
- **Effect of the Agricultural Base of the Local Area:**
None anticipated.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
