

MEMORANDUM

Date: September 16, 2019

To: Transfer 83503

From: Michael Holliday

Re: Review & Evaluation of Sufficiency of Information

This transfer adds a point of diversion to the canal company's ten water rights.

Authority to File:

Department records show the applicant as the current owner of the rights included in the transfer. The company is currently registered with the State of Idaho as a corporation in good standing. The transfer application was signed by the vice president of the canal company.

Water Right Validity:

The rights included in this transfer were decreed in the SRBA in 2008. Water District 1 records show regular delivery of these rights. Forfeiture is not an issue.

Injury to Other Water Rights:

Other water rights should not be impacted by the change because the quantities authorized to be diverted under the rights will not increase and the total number of acres authorized to be irrigated will not change. The application was advertised and no protests were filed. The Water District 1 Watermaster reviewed the application and indicated that he did not oppose its approval.

Enlargement of Use:

No issues identified.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issues identified.

Effect on Economy the Local Area:

No issues identified.

Effect on Agricultural Base of the Local Area:

No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
