It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. The purpose of this transfer is to add the point of diversion for stock water and commercial water uses that was included in the earlier transfer no. 68492. The place of use for stock water is being changed by this transfer.

The place of use for commercial is not to be changed by this transfer.

RE: Follow-up to Field Exam conducted on June 21, 2016 for 63-12594

Mr. and Mrs. Deruyter:

Thank you for coming in on August 2, 2016 to meet with us in regards to the licensing of Permit 63-12594. This letter is a follow-up to document what was discussed. During the field examination and water right review, there were some discrepancies found on the water rights/permits pertaining to this dairy. The water for the entire dairy operation was being diverted from one well. That well is not identified as an authorized point of diversion for water right 63-31100. The stockwater is being used at the new dairy location. The legal description for 63-31100 does not identify use in this area. The place of use for 63-31100 shows the place of use at the old dairy location south of the new dairy. This will have to be corrected to avoid a violation upon licensing of 63-12594.

The following items will need to be addressed with your water rights before we can move forward with the licensing of permit 63-12594.

- File a Notice of Change of Water Right Ownership for water right 63-31100 and permit 63-12594 with a copy of your conveyance document (property deed) containing a legal description.
- File an Application for Transfer of water right 63-31100 to change the point of diversion to SE¼NW¼ Sec. 31, Twp 03N, Rge 01W and Stockwater place of use to SE¼NW¼ Sec. 31, Twp 03N, Rge 01W and NE¼SW¼ Sec. 31, Twp 03N, Rge 01.

Please note that according to the provisions of Idaho Code §42-248 (1), Water right owners shall provide notice to the department of water resources of any change in ownership within one hundred twenty (120) days of any change using forms acceptable to the director.

Respectfully,

Clay A. Webster
Water Resource Agent

MEMORANDUM

Date: August 29, 2019

To: Transfer 83573

From: Clay Webster

Re: Review & Evaluation of Sufficiency of Information

The department received this application from David Shaw of ERO Resources Corp on 8/28/2019 on behalf of DeRuyter Dairy LLC. This transfer was in response to a beneficial use field exam (exam) conducted on permit 63-12594 which also diverts from the sole POD being used for this water right (63-31100). During the exam, it was noted that this water right did not list this POD in the decree. The correct location of the POD is SE¼NW¼ Sec. 31, Twp 03N, Rge 01W. This POD was added previously (prior to the adjudication) through transfer 68492. However, it was not included on the court decree of this water right, nor was the decree petitioned to correct it. The stockwater place of use (POU) also needs to be changed to SE¼NW¼ Sec. 31, Twp 03N, Rge 01W and NE¼SW¼ Sec. 31, Twp 03N, Rge 01.

Authority to File:

This application was signed by Nicholas DeRuyter who is listed as the registered agent for DeRuyter Dairy LLC on the ISOS website.

Water Right Validity:

63-31100 was decreed in January 2009 and was being diverted for commercial and stockwater uses during the exam in 2016. There are no validity concerns at this time.

Injury to Other Water Rights:

This transfer proposes to change one POD to the well currently diverting this water right at SE¼NW¼ Sec. 31, Twp 03N, Rge 01W. The proposal will not authorize any physical changes to how the water has been diverted since 2016. The stockwater POU is proposed to be updated to reflect the operations since 2016. No injury is anticipated at this time.

Enlargement of Use:

This transfer proposal will not authorize additional overall diversion of water nor any increase in beneficial use from the current water right.

Local Public Interest:

There are no apparent issues identified.

Beneficial Use/Conservation of Water Resources:

This proposed transfer will not change the authorized beneficial use under this right. The transfer appears consistent with the conservation of water resources in Idaho.

Effect on Economy the Local Area:

No effects are anticipated.

Effect on Agricultural Base of the Local Area:

This application will have no effect.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

Re: Legal Notice Not Required

Legal Notice Not Required
8/29/2019

Pursuant to Section 42-222, Idaho Code, the Department has discretion to provide public notice as deemed appropriate. The water right changes proposed through this transfer application do not appear to change the effect on the original or hydraulically connected water source or affect other water rights. Therefore, staff review of the transfer application found no cause to require public notice. This application will continue processing without advertisement and be forwarded for approval consideration.
