Item 7.a.

Well is drilled to a depth of 145 feet, with 8-inch steel casing from surface to 18 feet, and 6-inch PVC liner from 15-145 feet. Water will be delivered by way of 10-hp pump and 6-inch-diameter mainline to 1½-inch risers, to which sprinkler systems will be attached. Well currently provides water for domestic and stockwater use; irrigation works will be isolated from domestic/stockwater works, which include 3,000-gallon cistern.

Re: Adjustment for drilling permit fee for non-domestic well

The enclosed check in the amount of \$225 is intended to cover both the filing fee for Mr. Newman's Application for Permit and the balance of the drilling permit fee for the non-domestic well identified in the Application. As indicated on the enclosed Well Driller's Report, the well at issue was designated as domestic when it was constructed; it is therefore presumed the drilling permit fee submitted at that time was \$75. Accordingly, \$125 should satisfy the \$200 fee for a non-domestic drilling permit pursuant to the Department's fee schedule.

Respectfully,

James Browitt
