The Transfer of Water Right(s) is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

Detailed specifications are available on the Department's home page on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,

MEMORANDUM

Date: August 30, 2019
To: Transfer 83292
From: Corey Skinner
Re: Review & Approval

This transfer was processed in the region. The application has no hydrologic impact so it was not advertised. The watermaster was provided an opportunity to review the application but did not respond so it is assumed he does not oppose approval. The transfer proposes changing the place of use of water rights 43-45, 43-286B, 43-2061, 43-2110, 43-10116, and 43-1082 by creating a 266 acre permissible place of use. During final review of the transfer, it was noted that the IDWR database records for rights 43-45, 43-286B, 43-10116, and 43-1082 did not match the SRBA partial decrees that were issued for these rights. It was noted that there were no administrative actions involving these rights since the issuance of the partial decrees. Comparing these four IDWR records to the SRBA partial decrees revealed discrepancies in the diversion rates, diversion volumes, sources, points of diversion, places of use, and/or conditions. The transfer approval was issued based on information from the SRBA partial decrees rather than IDWR database records. Note that this results in discrepancies between the transfer application (in particular Part 2A information) and the final transfer approval.

Re: Evaluation of Sufficiency of Information Submitted

Application proposes rearranging acres for six water rights within the currently authorized permissible place of use (PPU) and adding two new tracts to grounds adjacent to the current PPU to match current irrigation practices on the ranch. Surface water rights 43-45, 43-286B, 43-10116 and 43-10824 are currently utilized in a 266 acre permissible place of use (PPU). Fifty three acres will be rearranged with 34 of those acres being added to two new tracts that will be irrigated this season due to the addition of 2 pivots this year and another added approximately 4 years ago. The tracts to be added include 9 acres in the NWNE and 25 acres in the SESW of Sec. 13, Twp 16S, Rge 27E. Surface water rights 43-2061 and 43-2110 currently are utilized in a 223 acre PPU that is completely contained within the 266 acre PPU. This PPU will be increased by 43 acres to match the 266 acre PPU of the other rights and 22.6 acres will be rearranged within the PPU. No additional acres are proposed to be irrigated beyond what is currently authorized under the existing water rights. PPU is located approximately 18.5 to 19.5 miles south and 6.1 to 6.8 miles east of Malta.

This PPU overlaps with one other irrigation water right, 43-7321. This right is for irrigation storage and irrigation from storage. This right is in the process of being licensed and is a companion to this transfer. The right allows the storage and irrigation of 26.0 acre feet and will share the same 266 acre PPU.

Prior to this transfer, water right records for 43-10116 indicated a diversion rate of 20.0 cfs, a volume of 924 af and five points of diversion on the water right, all of which did not correspond with the information on the partial decree. I have updated the records to correspond with the partial decree and the SF 5 form signed by the applicant on 12/12/2003. This will correct the diversion rate to 5.16 cfs; the volume to 1032 af; will drop Clear Creek as a source and the corresponding POD located in the SESENE of Sec. 27, and a POD for Round Mountain Creek located in the SWSWSW of Sec. 18, Twp 16S, Rge 27E.

The PODs and PPU for all rights in this transfer are located in Water District 43B and Watermaster comments will be solicited.

This application only shifts acres within and to lands contiguous to the original PPU and there is no actual hydrologic change. Therefore, pursuant to Section 42-222, Idaho Code, this transfer can be processed and approved without advertising.

- **Authority to File:** Applicant is listed as the current owner of all the water rights in this transfer. IDWR records indicate that the applicant owns all properties involved in this transfer.
- **Water Right Validity:** All water rights in this transfer were all decreed in the SRBA prior to 2/7/2004.
- **Injury to Other Water Rights:**
None anticipated.
- **Enlargement of Use:**
None anticipated.
- **Local Public Interest:**
No issues anticipated.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.
- **Effect on the Economy of the Local Area:**
None Anticipated.
- **Effect on Agricultural Base of the Local Economy:**
None Anticipated.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing

Case No. 39576

) (Round Mountain Ranch)
)
) 2nd SPECIAL MASTER REPORT

Findings of Fact

Merle Jones filed a *Notice of Claim to a Water Right* on April 20, 1989, claiming 20 cfs from Rice Creek and Round Mountain Creek to irrigate 266 acres in Cassia County from April 1 to November 1 with a priority date of December 31, 1900, based on beneficial use. On February 27, 1998, the Director of the Idaho Department of Water Resources filed his *Preliminary Director's Report for Water Rights Diverted from Clear Creek, IDWR Basin 43 - Cassia County*. Jeff Sessions filed an *Objection* on June 26, 1998, objecting to quantity, priority date, period of year and place of use. The same date, 1998, Harold, Beth and Ray Jones filed an *Objection* alleging the water right should not exist.

DWR filed a *Notice of Completed Administrative Proceeding* on April 7, 2000, for a substitution of party from Merle Jones to Shirley A. Jones. On September 28, 2001, the Director filed his *Director's Reports for Irrigation and Other, Reporting Area 7, IDWR Basin 43*. The Director recommended 43-10116 as claimed, but to Jeff Sessions and Shirley A. Jones for irrigation of 223 acres. The Special Master entered a *Report and Recommendation* on September 5, 2002, in multiple subcases in Basin 43, including 43-10116, recommending the claim to Shirley A. Jones. However, on October 11, 2002, Jeff Sessions filed a *Motion to Alter or Amend* and the *Motion* was granted on November 18, 2002.

On July 18, 2003, IDWR filed another *NCAP* for another substitution of party from Shirley Jones to Round Mountain Ranch. IDWR filed a *Supplemental Director's Report Regarding Subcase Nos. 43-45, 43-286B, 43-2110 and 43-10116* on October 17, 2003. Finally,

on December 17, 2003, the claimant and IDWR filed a *Standard Form 5* agreeing that 43-10116 be decreed to Round Mountain Ranch, HC 72, Box 2346, Malta, Idaho, 83342, for irrigation of 258 acres.

Conclusions of Law

Round Mountain Ranch is entitled to a partial decree adjudicating a water right under claim 43-10116 as described in the *SF-5* and the attached *2nd Special Master Recommendation for Partial Decree for Water Right 43-10116*.
