Hi Greg,
I got the maps you sent showing the aesthetic, recreation, and fish propagation places of use for the McCollum Enterprises water rights. My understanding is that those maps would be sufficient to update IDWR records for the aesthetic and recreation uses, since no changes are being proposed for the rights. I'll confirm with Corey when he is back in the office next week. One request would be to label the quarter quarters. I'm not sure if you're planning to submit them as a hard copy or electronic, but if possible it would be helpful if you could send me the shapefiles.

Regarding the fish propagation rights, the map you sent looks like what I was expecting after our last discussion. I am assuming that will be part of an Application for Transfer for those rights? Let me know if you have an estimated timeline for that.

Thanks,
Allison

SUPPORT DATA

IN FILE # 36-7239

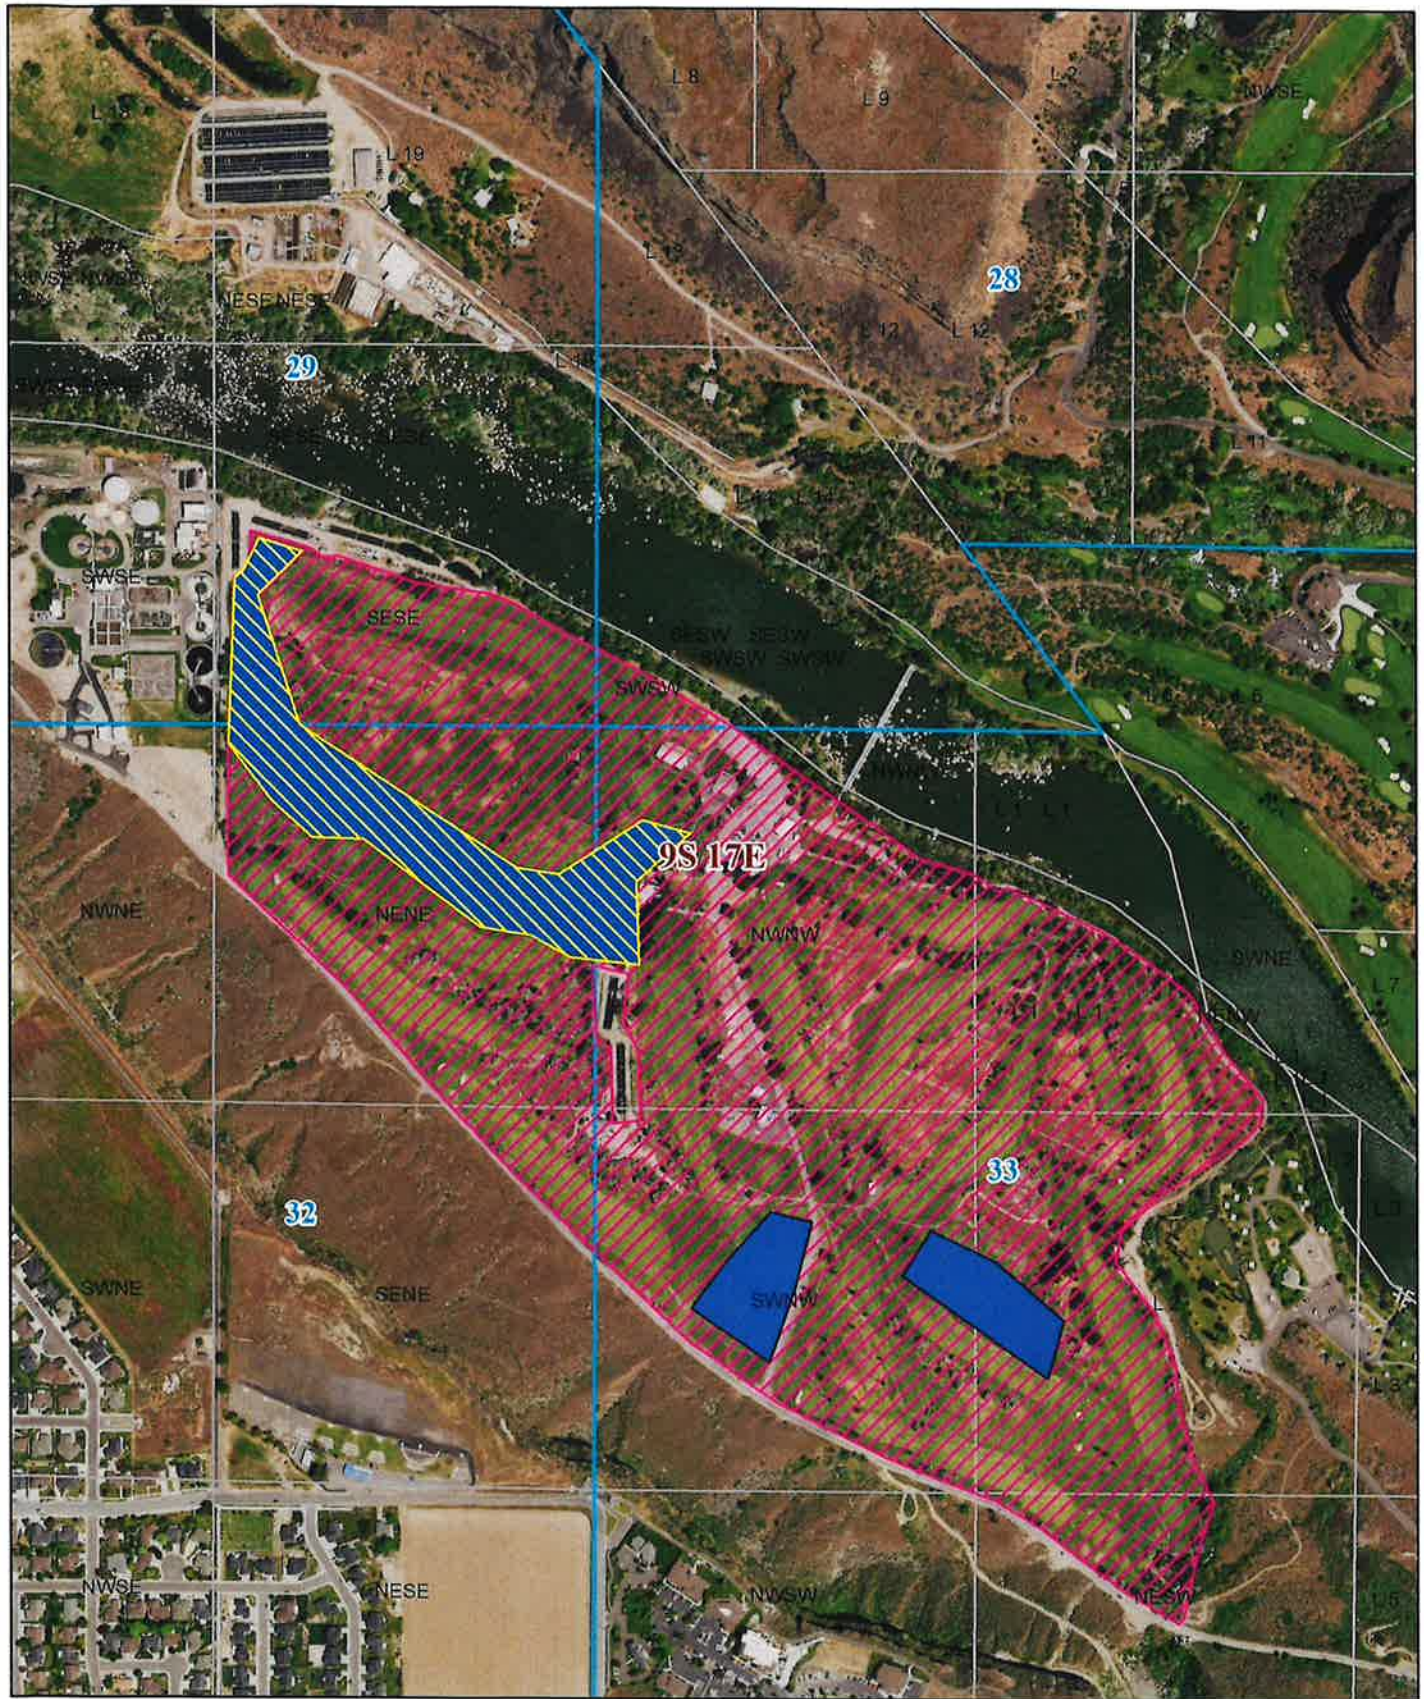

Allison,

Will the attached map work for updated the POUs for the aesthetic water rights?
