Attachments: Transfer 83485 Eccles Flying Hat Ranch.pdf

Dear Denise,

Thank you for the opportunity to review the attached Application for Transfer of Water Right No. 83485, Big Wood River in Blaine County.

The application was submitted to stop diverting 1.4 cfs into the Hiawatha Canal for mitigation as part of the previously Approved Water Right Transfer No. 68526. If Application for Transfer of Water Right No. 83485 is approved by IDWR, IDFG understands that the subject 1.4 cfs in the future would remain in the Big Wood River until being diverted several miles downstream into the Cove Canal as part of Water Right No. 37-577BP.

Based on review of information contained in Application No. 83485, IDFG notes that retaining the subject 1.4 cfs in the Big Wood River channel for a longer time period during the irrigation season would likely benefit fisheries.

Please let me know if you have questions/clarifications or need additional IDFG input.

Sincerely,

Frank
