Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE:

This lease is from Idaho Acres Dairy from right 36-8412 for 10 acres. 2.5 acres in each corner are proposed to be leased. A previous lease of this water right to the WSB occurred from 2014 through 2018 for 6 acres. The applicant stopped watering an additional acre in each corner of the pivot around 2017, equaling a total of 10 acres to now be leased.

AUTHORITY TO FILE:

The lease application was received by the Department December 11, 2018. Craig Hepworth, a partner of Idaho Acres Dairy, signed the lease application. The owner is listed as Idaho Acres Dairy C/O Craig Hepworth. According to 2018 Minidoka taxlot information, the applicant owns the POD and POU. Arc Map aerial imagery indicates that the corners of the SE quarter have not been watered since leased in 2008.

WATER RIGHT VALIDITY:

The water right was licensed in 2002. The Idaho Acres Dairy has had a part of this right in the water supply bank since November 2008. It has been in the Magic Valley Ground Water District's mitigation plan from 2004 to 2008. For this reason there are no validity issues at this time.

INJURY TO OTHER WATER RIGHTS: The acres being idled have not been irrigated within the last 5 years. Continued lease and non-use of these acres should not cause injury to other rights because with less water will be used with the leased acres in the bank.

ENLARGEMENT OF USE: No enlargement is evident through this lease. Overlap analysis of the acres revealed many overlapping ground water rights. All overlapping water rights are owned by Idaho Acres Dairy, A & B Irrigation District or The United States acting through the Bureau of Reclamation. Out of all the overlapping water rights, only rights 36-2512 and 36-11110 are used at the same POU as 36-8412. Rights 36-2512 and 36-11110 have combined limits with this right and combined limit conditions on the lease contract address the enlargement concern. Proper rental review should protect against enlargement.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The location of the water right is subject to Water District #130. I contacted Nathan Erickson, the watermaster of District 130, on 1/10/19 and he did not find issue with the lease.
