Notice of Change in Water Right Ownership

1. List the numbers of all water rights and/or adjudication claim records to be changed. If you only acquired a portion of the water right or adjudication claim, check "Yes" in the "Split?" column. If the water right is leased to the Water Supply Bank, check "Yes". If you are not sure if the water right is leased to the Water Supply Bank, [see #6](#) of the instructions.

Water Right/Claim No.	Split?	Leased to Water Supply Bank?	Water Right/Claim No.	Split?	Leased to Water Supply Bank?
45-14356	Yes ☒	Yes ☐		Yes ☐	Yes ☐
45-14359	Yes ☒	Yes ☐		Yes ☐	Yes ☐
45-14362	Yes ☒	Yes ☐		Yes ☐	Yes ☐
45-10172	Yes ☐	Yes ☐		Yes ☐	Yes ☐
	Yes ☐	Yes ☐		Yes ☐	Yes ☐

2. Previous Owner's Name: Farmland Reserve Inc
Name of current water right holder/claimant
3. New Owner(s)/Claimant(s): Nicholas and Tobee Cummins
New owner(s) as listed on the conveyance document Name connector: ☐ and ☐ or ☐ and/or
- 4402 E 3300 N Murtaugh ID 83344
Mailing address City State ZIP
- (208) 421-4208
Telephone Email
4. If the water rights and/or adjudication claims were split, how did the division occur?
☒ The water rights or claims were divided as specifically identified in a deed, contract, or other conveyance document.
☐ The water rights or claims were divided proportionately based on the portion of their place(s) of use acquired by the new owner.
5. Date you acquired the water rights and/or claims listed above: 2013, 2019
6. If the water right is leased to the Water Supply Bank changing ownership of a water right will reassign to the new owner any Water Supply Bank leases associated with the water right. Payment of revenue generated from any rental of a leased water right requires a completed [IRS Form W-9](#) for payment to be issued to an owner. A new owner for a water right under lease shall supply a W-9. Water rights with multiple owners must specify a designated lessor, using a completed [Lessor Designation](#) form. Beginning in the calendar year following an acknowledged change in water right ownership, compensation for any rental will go to the new owner(s).
7. This form must be signed and submitted with the following **REQUIRED** items:
☒ A copy of the conveyance document – warranty deed, quitclaim deed, court decree, contract of sale, etc. The conveyance document must include a legal description of the property or description of the water right(s) if no land is conveyed.
☐ Plat map, survey map or aerial photograph which clearly shows the place of use and point of diversion for each water right and/or claim listed above (if necessary to clarify division of water rights or complex property descriptions).
☐ Filing fee (see instructions for further explanation):

SUPPORT DATA

IN FILE # 45-10172

 - o \$25 per *undivided* water right.
 - o \$100 per *split* water right.
 - o No fee is required for pending adjudication claims.☐ If water right(s) are leased to the Water Supply Bank AND there are multiple owners, a Lessor Designation form is required.
☐ If water right(s) are leased to the Water Supply Bank, the individual owner or designated lessor must complete, sign and submit an IRS Form W-9.

WATER RIGHT ALLOCATION AGREEMENT

THIS AGREEMENT is entered into by and among LOGAN CUMMINS and LINDA CUMMINS, husband and wife, DANIEL CUMMINS and CARLA CUMMINS, husband and wife, and NICHOLAS CUMMINS and TOBEE CUMMINS, husband and wife.

Recitals

WHEREAS, Logan Cummins, Daniel Cummins and Carla Cummins, and Logan Cummins and Linda Cummins received a Water Rights Deed dated May 9, 2013, and recorded as Twin Falls County Instrument No. 2013010178 from Farmland Reserve, Inc., a copy of which is attached hereto as Exhibit "1" and incorporated herein by this reference; and,

WHEREAS, by such Water Rights Deed, Logan Cummins received a one-third (1/3) undivided interest in water rights numbers 45-10172, 45-14356, 45-14359 and 45-14362; and,

WHEREAS, by such Water Rights Deed, Daniel Cummins and Carla Cummins, husband and wife, received a one-third (1/3) undivided interest in water rights numbers 45-10172, 45-14356, 45-14359 and 45-14362; and,

WHEREAS, by such Water Rights Deed, Logan Cummins and Linda Cummins, husband and wife, and Lance Cummins and Suzanne Cummins, husband and wife, received as joint tenants, a one-third (1/3) undivided interest in water rights numbers 45-10172, 45-14356, 45-14359 and 45-14362; and,

WHEREAS, since such time Lance Cummins and Suzanne Cummins, husband and wife, have conveyed their joint tenant interest in the water rights to Logan Cummins and Linda Cummins, husband and wife; and,

WHEREAS, since such time Logan Cummins, individually, has conveyed his one-third (1/3) undivided interest to Nichola Cummins and Tobee Cummins, husband and wife, and,

WHEREAS, the parcels owned by each party to this agreement are shown by the legal description for each parcel as described on Exhibit "2" attached hereto and incorporated herein by this reference; and,

WHEREAS, the water allocated to each lot by the Water Right Deed attached as Exhibit "1" is an equal one-third (1/3) interest to each parcel but each parcel varies in size from

approximately 2.1 acres to 5.0 acres and the water rights should have been allocated proportionately to match the size of the parcel under Idaho water law; and,

WHEREAS, the parties hereto desire to reallocate and redistribute their water rights to the parcels of real property proportionately; and,

WHEREAS, the purpose of this Agreement is to memorialize and reflect their reallocation and redistribution of the water rights to the parcels of real property described on Exhibit "2" attached hereto.

NOW THEREFORE, it is agreed as follows:

1. Calculation for Each Parcel's Proportionate Share. For purposes of this Agreement, parcels 1, 2 & 3 as described on Exhibit "2" attached hereto consist of 3.6 acres for parcel 1, 2.1 acres for parcel 2 and 5.0 acres for parcel 3. The total acres for all three parcels are 10.7 acres. The water allocated by water right numbers 45-14356, 45-14359 and 45-14362 to parcels 1, 2 & 3 is allocated to the total 10.7 acres of the three parcels. Based upon each parcel's size in proportion to the entire 10.7 acres, the proportional factor to calculate the amount of water from each right appurtenant to each parcel is as follows:

Parcel 1 – 0.336

Parcel 2 – 0.196

Parcel 3 – 0.467

2. Water Right Split Calculated Proportionally by Lot Size. The following table was prepared by the Idaho Department of Water Resources and is used to allocate the proportionate amount of water from each water right to each parcel based upon each water right being limited to a total of 7.3 acres when all three parcels are combined.

Water Right Split Calculated Proportionally By Lot Size

	45-14356	45-14359	45-14362	Total
Acres before Split	7.3	7.3	3.4	7.3*
Number of acres allocated to each lot:				
Parcel 1	2.5	2.5	1.1	2.5
Parcel 2	1.4	1.4	0.7	1.4
Parcel 3	3.4	3.4	1.6	3.4

* Note, the water rights are limited to a total of 7.3 acres when combined; the individual acre amounts are not additive.

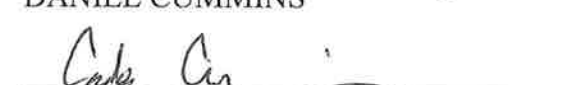

For purposes of splitting each water right and allocating a portion to each parcel, the Idaho Department of Water Resources may rely upon this calculation to allocate such water to each parcel described on Exhibit "2."

DATED this ____ day of July, 2019.

Re: Change in Water Right Ownership: 45-10172,
45-14362 (Split into 45-14362 and 45-14523),
45-14359 (Split into 45-14359 and 45-14521), &
45-14356 (Split into 45-14356 and 45-14519)

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of a portion of the above referenced water right(s) to you. The Department has modified its records based on the information received and has enclosed a computer-generated report for you.

Your portion of each water right(s) has a specified point of diversion, nature of use and place of use. If you plan to change the authorized point of diversion, nature of use, or place of use, including adding a new point of diversion, you must file an Application for Transfer of Water Right. If you do not plan to change any elements of your water right, then no further action is required at this time.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 736-3033.

Sincerely,

Allison Inouye
Water Resource Agent

Allison,

Thank you for checking with me. Yes I did speak with him and he didn't have any changes so I have sent them to the Cummins for signatures. I spoke with Tobee Cummins last week and she said is working on getting signatures but that it is going slowly as this time of year is really busy for them and their families. As soon as I hear back from her I will get back in touch with you.

Thank you for your help on this.

David.

Subject: RE: Cummins Agreement

Hi David,

Sean Costello from our legal office in Boise said he would give you a call to chat about this agreement. I thought that would be more efficient than trying to relay it through me.

A couple other items that you might want to touch base with the Cummins' are:

- When they sign the agreement, I was hoping you might be able to have them fill out and sign the IDWR Notice of Ownership Change forms at the same time. I've attached a partially completed form. If you could, please print 3 copies – one for each parcel – and just have each party fill out their information in Item #3 and sign/date it.
- What do the parties want to do with water right 45-10172 for domestic & stockwater purposes? Just a few of my thoughts:
 - The partial decree from 1998 noted that it was for 2 homes and is limited to 13,000 gallons per day. It identifies one point of diversion.
 - Nicholas & Tobee are listed as the current owners because they filed paperwork with IDWR & submitted the required deed/fee to update it into their name. It could be updated or changed if they want to do something different.
 - It is somewhat un-common to split domestic/stock rights, but if it were done, each right would have a condition that said all 3 portions would be limited to 13,000 gallons/day when combined. Each portion of the right would also still list the same point of diversion.
 - Another option would be to keep the water right whole, but list all of the parties as current owners.
 - Or possibly, one or two of the parties may want to convey their interest in that right to the other party(s).
 - There are probably many other possibilities, but those are just a few thoughts.

Thanks, David. Hopefully this helps. Feel free to reach out with questions.

Best,
Allison

Hi David,

I appreciate you letting me review the draft document. I spoke with Corey about it and what the Cummins' are trying to achieve with it. Conceptually, we both think it makes sense. Since it is a bit of a unique situation, and since the sole purpose of the document is to clarify the water right ownership, we thought it would be prudent to ask for input from the Department's legal staff in Boise. I sent an email to them today explaining the situation and asking if they recommend the use of any specific language; I also asked if they could provide a timeline for when they think they will be able to review it. As soon as I hear back, I will let you know.

Best,
Allison

Re: Change in Ownership for Water Right No(s): 45-14356, 45-14359, 45-14362 (*not processed*)

Dear Interested Party:

The Department of Water Resources (Department) acknowledges the receipt of correspondence to split and change ownership of a portion of the above referenced water rights to you.

The Department requested additional documents regarding evidence of the water right ownership from you on 11/2/2018. On January 10, 2019, a copy of a water right deed was provided. After further discussion, you indicated that you and the owners of the other two portions of those water rights would like to split the rights proportionally by lot size rather than evenly into thirds as specified in the deed. We discussed the need for an additional deed conveying the water rights in that manner in order to be able to modify the water right records. On March 8, I spoke with attorney David Coleman who indicated he was preparing documentation to facilitate a proportional split of the water rights.

As of the date of this letter, the Department has not received any additional documentation. If you would still like to split the water rights proportionally by lot size, please submit documentation showing the proportional split of the water rights as well as signed Notice of Change in Water Right Ownership forms (enclosed) submitted by the other water right owners. If that information is received and processed together, no additional filing fee will be required.

If no additional information is submitted by May 19, 2019, the Department will process the paperwork as it is currently filed. Once it has been processed, any changes would require an additional filing fee.

If you need additional time, would like to withdraw the paperwork you previously submitted, or have any questions concerning the enclosed information, please contact me at (208) 736-3033.

Sincerely,

Allison Inouye
Water Resource Agent

SECOND NOTICE

PLEASE REPLY BY JANUARY 14, 2019

RE: Change in Ownership of Water Right Nos: 45-14356, 45-14359, 45-14362

Dear Nicholas & Tobee:

In June 2016, the Department of Water Resources (Department) received a Notice of Change in Water Right Ownership (Notice) for the above referenced water rights. We apologize for the delay. This Notice has not yet been processed and a recent review indicates that additional information is required before the Department can process the change. The information required is indicated below:

 X Evidence of Water Right Ownership: copy of Deed, Title Policy, Contract of Sale, or other legal document indicating your ownership of the property and/or water rights in question

To further explain, our records include a 2010/2011 Water Transfer Agreement between Farmland Reserve, Inc. and Grant Cummins, Leah Cummins, Daniel Cummins, Carla Cummins, Logan Cummins, Linda Cummins, Lance Cummins, & Suzanne Cummins. The agreement specifies that a transfer would be filed with the Department to split off a portion of the 3 irrigation water rights appurtenant to the Cummins residential parcels. It specifies that upon the Department's approval of the transfer, Farmland Reserve, Inc. would convey those portions of the rights to the Cummins family members noted above. That transfer was approved by IDWR in 2011. However, the Department does not have record of any deed specifically conveying the split portions of the water rights from Farmland Reserve, Inc. to the Cummins family as was indicated in the 2010/2011 Water Transfer Agreement.

In order to process your Notice, we will need documentation showing the conveyance of these water rights from Farmland Reserve, Inc. to Logan, Linda, Lance, & Suzanne Cummins OR from Farmland Reserve, Inc. to you. Because the Department cannot process the Notice without proper documentation, we will hold any action on your notice pending receipt of the necessary information. If we do not receive the necessary information by December 3, 2018, we will return your notice and all attachments and your notice will not be processed.

Also, please note that permit holders are required to report any change of ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Forms to assign ownership or update your address are available from any office of the Department or on the Department's website.

If you have any questions regarding this matter, please contact me at (208) 736-3033.

Sincerely,

Allison Inouye
Water Resource Agent
