RECITALS

1. The Board is authorized under chapter 17, title 42, Idaho Code to operate a water supply bank and to contract with lessors to act as an intermediary in facilitating the rental of water.
2. The Lessor has filed a completed application to lease water rights described below into the Water Supply Bank on forms supplied by the Idaho Department of Water Resources and received by the Department on June 13, 2019.
3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. **WATER RIGHTS:** The Lessor shall lease and the Board shall accept into the Bank the Applicant's water rights described as follows:

5. **CHANGE OF WATER RIGHT:** This lease specifies water right elements including but not limited to: diversion rates; diversion volumes; number of acres authorized to be irrigated; places of use; points of diversion; beneficial uses; and seasons of use. During the term of this lease, if a water right is administratively changed due to a water right split and renumbering, this lease may be reduced by an equal amount to reflect the water right elements as legally defined under the water right. If a lease contract cannot be reduced sufficient to reflect the legal definition of a water right as amended through a water right split and/or water right transfer, the Board may release the water right from the Water Supply Bank.

MEMORANDUM

To: Water Right No(s). 77-10105
From: Justin Ferguson
Date: June 14, 2019
Re: Review of Applications to Lease Water Rights to the State Water Supply Bank

PURPOSE/NARRATIVE: The applicant wishes to lease into the bank the entirety of water right number 77-10105. The stockwater right is in the same place of use as two other rights the applicant owns, 77-2048 and 77-2095 which have also been leased into the bank. These two rights were found to be stacked while 77-10105 could be separated into its own lease application, received June 7th 2019. There was a concern that the right had not been used and that forfeiture may have occurred, however the applicant provided a letter confirming that the right had been exercised in 2016 and 2017. The applicant also indicated that they may be interested in selling the right for fishery support, their information has been given to Amy Cassel (Program Manager, IDWR's Salmon ID office).

AUTHORITY TO FILE: A partial decree indicates that water right 77-10105 was given to Rose Neal. Provided by the applicant are two 2004 personal representative's deeds indicating that the property was granted to Nancy Marie Kozlowski from the estates of Rose Marie Neal (deceased) and Winfield Scott Neal (deceased). Change of ownership documents for Nancy Kozlowski have been filed with the department and our records have been updated.

WATER RIGHT VALIDITY: There was a concern that the right had not been exercised for 5 years and that forfeiture may have occurred. A lease review memo done on related water rights 77-2048 and 77-2095 along with a letter submitted by the applicant indicate the right has been used as recently as 2016 and 2017. At this time there are no concerns about water right validity.

INJURY TO OTHER WATER RIGHTS: No injury is apparent.

ENLARGEMENT OF USE: No enlargement is evident through the lease alone. Proper rental review should protect against enlargement.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The lease PODs are located within the MSF reach of Lick Creek. The PODs are not currently subject to watermaster control.

From the review memo for rights 77-2048 and 77-2095: These Lick Creek rights are senior to the minimum streamflow right on Big Creek (right 77-14178) and in drier years authorize diversion of the entire flow of Lick Creek. Rather than dewater Lick Creek, the current generation of the Neal-Kozlowski family has voluntarily subordinated their rights in order to ensure that some water for fish habitat will be available in Big Creek

Regional comments will be requested.

MEMORANDUM

Date: June 7, 2019
To: Water Right File 77-10105
From: Michele Edl
Re: stockwater use

Earlier this week I had a phone conversation with Nancy Kozlowski. She owns property with appurtenant water rights (77-2048, 77-2095 and 77-10150) that she wanted to lease to the Board's Water Supply Bank. Two of the rights (77-2048, 77-2095) were found to be stacked and have already been approved for lease to the bank. Right 77-10150 could be separated from the others and so required a separate lease application and fee.

I reviewed available aerial photography and evidence of water use supplied by the right holder for the lease of the other two rights. I had concerns that right 77-10150 had not been used within the last five years, could be subject to forfeiture and therefore would not be allowed into the bank. I shared my concerns with Nancy in our phone conversation.

Today, Friday June 7, 2019, I was visited by Nancy Kozlowski and her husband. They paid the fee for the additional lease and provided the attached letter as evidence of use.

I am now recommending that this third lease also be processed. Nancy Kozlowski had completed an Application to Sell or Lease a Water Right form during a May 9, 2019 visit to my office.
