

MEMORANDUM

Date: June 21, 2019
To: Water Right File 25-2020
From: Michele Edl
Re: connection to old number 4629

As part of office day duties, I received a phone call and emails from Matthew Davidson. Mr. Davidson is representing the Church of Latter-Days Saints and needed to clarify a water right held by the church in the Ammon area of Idaho.

I was able to help him confirm that old Permit No. 4629 had been developed and had been issued a license and was now decreed right 25-2020.

As of this date, the right is protected from forfeiture in a long-term lease to the water supply bank.
