Re: Change in Ownership for Water Right No(s): 37-740 & 37-10736

Dear Water Right Holders:

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water rights to you. The Department has modified its records and has enclosed a computer-generated report for you.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 736-3033.

Sincerely,

Allison Inouye
Water Resource Agent

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records for some of the rights and has enclosed a computer-generated report for you. Please note the following items:

- Your Notice of Water Right Ownership form (Notice) identified water rights 37-421, 37-422, & 37-1132 which are owned by the Little Wood River Irrigation District. The documents submitted with the Notice indicate that you likely own shares with the irrigation district. IDWR does not maintain records of individual shares so the ownership of those rights was not modified; rather you should work with Little Wood River Irrigation District directly to update their records.
- Although the irrigation district water rights were not processed, three other privately held water rights were identified that seem to be appurtenant to your property. Those numbers are 37-96A, 37-97A, & 37-11647. Those rights were previously in the name of Farnworth and have been updated to you.
- Your Notice identified water rights 37-740 and 37-10736 which are currently in the names of Ronald & Wanda Peck. I have enclosed copies of the rights. No deeds were provided showing your ownership of the properties that those rights are appurtenant to. If you provide the necessary deeds **within 30 days of the date of this letter**, these rights will be updated into your name. If not, the Department will initiate a refund of that portion of the filing fee.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 736-3033.

Sincerely,

A handwritten signature in cursive script that reads "Allison Inouye".
