PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 95-17586

Dear Permit Holder(s):

The Department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the field examination, please contact the Northern Region Office of the Department located in Coeur d'Alene at (208) 762-2800.

Sincerely,

Darla Block
Technical Records Specialist

SUBJECT: In-House Field Exam Review.

I reviewed this permit for the possibility of doing an in-house field exam. I determined that it may not be in the best interest of the Department to license this permit without determining the diversion rate of the well. According to the well driller's report, the well was pump dry in an hour at a diversion rate of 20 gpm. Each home has a cistern, which also suggest that the well may not be sufficient to supply all three homes under the standard rates and volumes. I feel we should visit the site and determine if the well can supply a year round water supply to three homes, and if yard irrigation is being done. It could be that these domestic uses only use the well for in-house use only due to the poor production from the well.
