2. 194 diversion and the new point of diversion designated in the transfer.
To mitigate for the depletion of water resulting from the diversion and use of water under this right and to prevent injury to other water right holders, the right holder shall cease diverting and using 0.03 cfs of this right, which shall remain undiverted in the Big Wood River.
3. This right is a split from former right 37-155 .
4. R01 A measuring device of a type approved by IDWR shall be maintained as a part of the diverting works.
5. N08 The quantity of water decreed for this water right for stockwater use is not a determination of historical beneficial use.
6. N05 The quantity of water under this right for stockwater use shall not exceed 13,000 gallons per day.
7. The total combined diversion rate for irrigation and stockwater purposes under this right shall not exceed 0.10 cfs.
8. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
9. R04 Use of water under this water right will be regulated by the watermaster of State Water District No. 37.
10. N01 The appropriator is entitled to the quantity of water decreed for stockwater purposes at a point of measurement where the delivery ditch enters the place of use described, so long as the quantity diverted at the point of diversion does not constitute unreasonable waste.
