From: Douglas Jones

RE: Application, fee processing

Original application (now superceded) was filed in 8/14/2017, was incomplete and then withdrawn. Fees paid under N032867 were refunded 9/14/17.

Application was refiled on 5/31/2019 with correct fee. Applicant was notified of the need to file an original signature application and a draft apparently was prepared and sent to applicant. Applicant edited the form on 6/7/2019 and it was received 6/10/2019.

To Whom it May Concern:

I am resubmitting this application for the water rights for the well on my property. I had submitted it a few years ago, as verified by the date stamp, but was told that there was a process by which owners would be given their water rights for free back to the date when the well was dug. It has now been a few years, and it sounds like it is anticipated that this process will most likely take a few more years. I was wondering if by any chance I could have my water rights dated back to when I had initially applied in 2017, or if, when the adjudication is implemented if I may apply again to receive the rights back to the date the well was dug. Enclosed is the application and the 100.00 fee.

Thank you sincerely for your consideration.
