INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights, and, if a required claim for the water right has not been filed, to file the needed claim.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures, or if you have questions about completing this form, please contact your nearest IDWR office or call 1-800-451-4129.

If you need additional space to describe or explain any of the items on the form, please attach additional sheets to the form as you may require.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at Item 1. If you or the seller believe there are water rights for the property but the numbers are unknown, you may wish to call IDWR or come into an office of IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at Item 2 is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at Item 3.
4. The name, mailing address, and telephone number of the new owner(s) is entered at Item 4. Please indicate the relationship between multiple owners by using the connector "and", "or" or "and/or". If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign, however only one of the named parties is required to sign.
5. At Item 5, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. If the property you have purchased is only a portion of the property owned by the former owner/seller, you may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at Item 6.

Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than 1/2 acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at Item 7. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

RE: OWNERSHIP OF WATER RIGHT 15-020458

Dear New Water Right Holder:

We have received correspondence changing ownership of the above referenced water right to you and we have modified our computer records to reflect this change.

Enclosed is a report listing you as current owner of the right and other important information about your water right. **Please review carefully the Conditions of Approval and Remarks.**

Also, please note that as of July 1, 1996, all water right owners are required to report any change in water right ownership and any change of mailing address to the department.

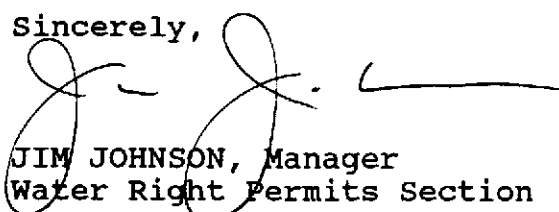

If you have acquired any other water right or have changed your mailing address **PRIOR TO** July 1, 1996, you have until July 30, 1998, to record the ownership and/or address change with the department.

If you acquired other water rights or changed your mailing address **AFTER** July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes in a timely manner could result in a \$100 late filing fee.

You can contact any office of the department for more information. If you have any questions concerning your water right listed above you can contact me at (208)327-7947.

Dear Mr. Evans:

Our field engineer's report on the inspection of the completion of construction work and application of water to beneficial use under the terms of Permit No. G-25269 shows that the well is capable of conveying $57\frac{1}{2}$ miner's inches (1.15 c.f.s.) of water for irrigation of 95 acres. This permit is now entitled to a Certificate of Completion of Works and a License and Certificate of Water Right.

Upon receipt of the statutory fees, total of \$11.00, we will issue, jointly, the Certificate of Completion of Works (for which the fee is five dollars) and the License (six dollars—based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of November 12, 1954, to the use of 1.15 second feet of subterranean water with the point of diversion in the $NE\frac{1}{4}NE\frac{1}{4}$ of Section 3, for irrigation of 95 acres in the $NE\frac{1}{4}NE\frac{1}{4}$, $S\frac{1}{2}NE\frac{1}{4}$ of Section 3, Township 14 South, Range 36 East, B.M.

Dear Mr. Evans:

We acknowledge receipt of the depositions of yourself and Mr. Perry L. Jones, the holders of the Permit, the two witnesses, also the affidavit of publication in The Idaho Enterprise, all submitted in proof of completion of works and beneficial use on Permit No. G-25269.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you or Mr. Perry L. Jones at the time he makes the examination so that arrangements may be made to show him over the grounds.

I am in receipt of your letter of November 1, 1956. You note that the proofs call for two wells, this is an error. There is only one well. This is the well which the Permit calls for. The well is in the NE¹/₄NE¹/₄ of Sec. 3, Twp. 14 S., Rge. 36 E., B.M.

Thank you for calling my attention this matter, I hope that this will clear the matter.

Dear Mr. Evans:

We acknowledge receipt of the depositions of yourself and also Mr. Perry L. Jones as holders of the Permit and also the two witnesses, and also affidavit of publication in the Idaho Enterprise, all submitted in proof of completion of works and beneficial use on the above mentioned Permit.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact one or possibly both of you at the time he makes the examination so that arrangements may be made to show him over the grounds.

We note that the proofs call for two wells, one in the ~~SW~~ of Sec. 3., Twp. 14 S., Rge. 36 E., B.M., the other in the ~~SW~~ of Sec. 34., Twp. 13 S., Rge. 36 E., B.M. The Permit calls for one well in the NE¹/₄NE¹/₄ of Sec. 3., Twp. 14 S., Rge. 36 E., B.M.

If the proofs are correct and you are making proof on the two wells it will be necessary to amend the point of diversion as given in the Permit to include the other well.

We enclose an Application for Amendment of the point of diversion and when signed by both holders of the Permit, please return to this department for the approval of the State Reclamation Engineer.

We enclose Permit No. G-25269 in the name of yourself and Barry L. Jones.

You will note that this is made out jointly in the two names without reference to the 1/4 and 3/4 division mentioned in the instrument submitted. The permit will be carried pointly until proofs are made after which time the division can be arranged between the two.

Although your application states that only one year will be required for making proof of Completion of Works and Beneficial Use you will note that we have allowed two years or until November 13, 1956. However, these proofs can be made at any earlier date that you are prepared to make them.

You will also note that this permit has been approved for 114 inches or 2.28 cubic feet per second as one inch per acre is the maximum allowed for irrigation use.

The filing fee on this amount is \$5.50 for which we enclose departmental receipt No. G-854 and as your check was for \$5.75 we enclose 25 cents refund.

We also return your original check for \$5.00.

Very truly yours,

AMENDED APPLICATION FOR DUG WELL:

We the undersigned, hereby apply to amend Application of Raymond J. Evans of Nov. 5th. 1954 for four (4) cu. fet. per second, to include the applicant hereunder Perry L. Jones; for a One-fourth interest in application for dug well of Nov. 5th. 1954 for the East Half of the Southwest quarter of the Northeast quarter; and the East Half of the Northwest quarter of the Southeast quarter of Section Three (3) in Township 14 South, Range 36 East Boise Meridian, on which said tract there are 35 acres of irrigatible land in said described strip of land, said land owned by said Perry L. Jones, the undersigned, and said Raymond J. Evans owning the other three-fourths interest in his application of Nov. 5th. 1954, hereby amended to include the land of and the member Perry L. Jones, the adjacent owner.

That Perry L. Jones, the applicant amended for owns Five shares of water in the Malad Valley Irrigating Company, used on his above described lands and will irrigate One (1) acre for each share of said water stocks, on this character of land, which is a gravelly black loam soil in character, and will require at least one share of M.V.I.Co. water stocks to irrigate One acre of land for raising grain and hay, and will require 2 shares of M.V. I.Co. water stock shares to irrigate One acre for row crops; in fact M.V. I. Co. water stocks could not be delivered often enough to even raise row crops, and the total flow of said well will be necessary to raise row crops of any kind.

That above said 35 acres of irrigatible land on the above described Forty (40) acre tract is about equeally divided on said described forty acre tract; the home and yards, being on the South-east corner of the above described tract, hereby applied to insert in the application of said Raymond J. Evans of Nov. 5th. 1954 for permit for dug-well

WITNESS our hands this the 10th. day of November 1954.

Dear Mr. Evans:

We acknowledge receipt of your application for permit to appropriate three to four second feet of water from a well in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 3, Township 14 South, Range 36 East B.M. accompanied by your check for \$5.75.

Since this water is to be used on only 79 acres in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 34, Township 15 South, Range 36 East B.M. and the E $\frac{1}{2}$ NE $\frac{1}{4}$ Section 3, Township 14 South, Range 36 East B.M., the application cannot be approved for more than 79 inches or 1.58 cubic feet per second, as 1 inch per acre is the maximum allowed by statute for irrigation purposes.

Very truly yours,
