RE: RETURNED APPLICATION(S) TO LEASE WATER RIGHT NO(S). 61-12315 TO THE WATER SUPPLY BANK

Dear Applicant:

The Department of Water Resources (Department) has completed its review of your application(s) to lease water right(s) to the Water Supply Bank (Bank). Based on that review, the Department cannot accept water right(s) 61-12315 into the Bank. This letter is notice that the attached application(s) to lease water to the Bank are being returned.

To be eligible for lease to the Bank, Water Supply Bank rule 25.02 (IDAPA 37.02.03.25) requires a completed application showing proof of ownership by the applicant and information showing the water right has not been lost through abandonment, or forfeiture as defined by Idaho Code 42-222(2).

Per Elmore County Assessor's Office data it appears that you are not the owner of the land to which water right 61-12315 is appurtenant. Our office requested information showing that you had retained ownership of the water right separate from land so that we could proceed with the application.

The Department also did a preliminary review of satellite imagery from recent years was not able to find indication that irrigation of the place of use for water right 61-12315 had occurred during the period for which you have submitted power records. Because we were not able to determine beneficial use over the last 5 consecutive years we were not able to lease this right into the bank without further clarification.

To address the above concerns, the Department issued you a letter on June 7 2019, requesting additional information necessary for us to continue reviewing your lease application. That letter provided a 30 day deadline for a response. Because this was a preliminary review and no communication was received by the department your application is being returned with the filing fee.

If you still wish to lease these rights to the Bank please submit a new application with the requested information prior to December 31 2019. Should we find that we are able to lease the rights, and that no irrigation has occurred at the place of use this year, we are able to back-date the lease to January 1 2019. This would provide forfeiture protection starting at the first of this year until December 31 of the requested term, when the five years would begin again.

Please note the forfeiture period is not tolled unless a right is accepted into the Bank, or unless an exception or defense to forfeiture applies as described under Idaho Code § 42-223. If forfeiture is a concern, you may consider filing an Application for Extension of Time to Avoid Forfeiture of a Water Right form. This and other water right forms are available from the Department's web site at www.idwr.idaho.gov.

If you have questions regarding this matter, please contact me at (208) 287-4936.

RE: Action Required on WSB Lease Application 1243

Dear Applicant,

The Department of Water Resources (Department) has conducted a preliminary review of your application to lease water right 61-12315 to the Water Supply Bank and determined that your application is incomplete. The following items are required to continue processing your application:

- Proof of current ownership;
- Confirmation that the water rights proposed for lease to the Water Supply Bank have not been lost to abandonment or forfeiture.

To be considered complete, Water Supply Bank rule 25.02.b requires that proof of current ownership be submitted with the application and rule 25.02.c requires that a lease application should include information that a water right has not been lost through abandonment, or forfeiture as defined by Section 42-222(2), Idaho Code. Per Elmore County Assessor's Office data it appears that you are not the owner of the land to which water right 61-12315 is appurtenant. Please provide our office with a document to confirm you have retained the ownership to the water right separate from the land. Additionally, a review of satellite imagery from recent years does not indicate that irrigation of the places of use for your water right occurred coincident with the times you have submitted power records that indicate pumping. As such we were not able to determine beneficial use occurred within the last five years.

To continue processing of your application, our office requires documentation to confirm you remain the owner of the water right above and that the water right proposed for lease has not been subject to forfeiture or abandonment. Please provide us with the above requested information within 30 days (deadline of July 07, 2019), so that we can finalize processing of your application. If we do not hear from you prior to the established deadline, your application will be returned to you and your filing fee will be refunded.

If you have any questions, please contact me at (208) 287-4936.

Regards,
