07N	42E	30					35.5	38.0 L1	16.0 L2										89.5

Total Acres: 797.2

Conditions of Approval

1. Proof of application of water to beneficial use shall be submitted on or before **July 01, 2021**.
2. Subject to all prior water rights.
3. Rights 22-7648, 22-14216, 22-14217, 22-14218, 22-14219, 22-14220, 22-14221, 22-14222 and 22-14223 when combined shall not exceed a total diversion rate of 16.36 cfs, a total annual maximum diversion volume of 2880 af at the field headgate, and the irrigation of 823 acres.
4. To mitigate for the depletion of water resulting from the use of water under this right and to prevent injury to senior water right holders, the right holder shall cease diverting and using water as

State of Idaho
Department of Water Resources
Permit to Appropriate Water
No. 22-7648

authorized by the following water rights for the purposes and amounts specified below. Moreover, the official record for the following water right will be changed to show that diversion and use of water is not authorized because the rights, or portion thereof, are being dedicated to mitigation by non-use. The mitigating right may also include a condition stating that the mitigation by non-use is for the benefit of this right.

Right No	Use Changed to Mitigation by Non-Use	Mitigation Rate (cfs)	Mitigation Volume (AF)	Mitigation Acres
22-13019	Irrigation	2.97	595	170

The land that will no longer be irrigated under this right is located within the E1/2 of Section 19, Township 07N, Range 42E, B.M. If the specified mitigation right, or portion thereof, is sold, transferred, leased, used on any place of use, or is not deliverable due to a shortage of water or a priority call, then the amount of water authorized for diversion under this right approval shall be reduced by the same proportion as the reduction to the mitigation rights.

5. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 100.
6. Prior to the diversion and use of water under Permit 22-7648, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
7. Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.
8. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the place of use.
9. Place of use does not include federal public lands.
10. This right does not grant any right-of-way or easement across the land of another.
11. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.

This permit is issued pursuant to the provisions of Idaho Code § 42-204.

Signed this 15th day of July, 2019.

JAMES CEFALO
Water Resources Program Manager
