Re: phone call on May 15, 2019

A letter was sent to the Kelly's regarding a condition on their permit. The condition is *"prior to the diversion and use of water under this approval, the right holder shall comply with all fish screening and/or fish passage requirements of the Idaho Department of Fish & Game."*

I spoke with Mr. & Mrs. Kelly today. They have been out of town and just read the letter today. They explained the system to me: There is a pipe in the creek that has a screen on it. The water is gravity fed and goes into a catch basin.

I asked that they take pictures of the system. As soon as they can get into the place of use, waiting for the snow to melt, they will take pictures and send them to me. I have given them until June 17th to provide the pictures.

RE: Water Right Permit No. 77-14364

Dear Permit Holder:

The Department of Water Resources (Department) received your proof of beneficial use for water permit 77-14364. This permit qualifies for an in-house field exam (IDAPA 0035.02.r). During the review, it was determined that additional information is needed to complete the review.

There is a condition on your permit that states, "Prior to the diversion and use of water under this approval, the right holder shall comply with all fish screening and/or fish passage requirements of the Idaho Department of Fish & Game." Has a fish screen been installed and the requirements met?

Please respond within 20 days and the Department will continue processing your license. If the Department does not receive a response within 20 days, steps could be taken to void your permit. If you have any questions, please contact me at (208) 287-4942. Thank you.

Sincerely,

Jean Hersley
