Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of an Application for Transfer changing ownership of a portion of the above referenced water right(s) to you. Based on the deeds provided, the Department has modified its records and has enclosed a computer-generated report for you.

Your Application for Transfer will be processed based on the new water right numbers in your name(s). You will receive additional correspondence regarding the processing of that application.

The portion of the water right retained by the original right holder retains the original water right number. The Department is sending the original right holder a copy of this letter and a computer-generated report showing the changes to the original water right.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 736-3033.

FEE MEMORANDUM

Date: June 6, 2019
To: Delgado Family Trust Transfer #83330 File
From: Jim Bitzenburg
Re: Receipting/disposition of fees paid

This transfer was filed on May 20, 2019 and involves changing the point of diversion (POD) for a ground water irrigation right. A change of ownership for the four rights appurtenant to the property was included with the application, so that was processed before the transfer processing began. The ownership change required splitting the four rights, so that portion of the fee is calculated as four splits, at \$100/split, or \$400.00. The POD change for the ground water right would be based on the total flow rate of the right, 0.018 cfs, which is below 0.20 cfs, so the basic transfer fee is \$200.00. The well that the ground water right will now be diverted from was drilled as a domestic well with a drilling permit fee of \$75.00, and since it will now be used as an irrigation well (drilling permit fee of \$200.00), an upgrade fee of \$125.00 is required. The total fee is \$725.00, which was paid by check #525 from Silver Sage Owners Association, receipt #S037331. Nine other companion transfers were filed at the same time and were paid for with the same check.

Re: Silver Sage Subdivision

Dear Mr. Skinner:

Attached to this letter are 10 transfer applications. The intent of the transfer applications is to assign 11 portions of water rights 37-22499, 37-2843, 37-21240 and 37-21242 to various property owners and entities associated with the Silver Sage Subdivision.

The parent water rights 37-22499, 37-2843, 37-21240 and 37-21242 will be split based on the attached Transfer Analysis Spreadsheet to the various property owners. The remaining portion of the parent water rights will remain in the name of Silver Sage Owners Assn Inc. The 5.9 acre portion of water rights retained by Silver Sage Owners Assn Inc. will be located in common areas, roadways, and on individual lot owners property. The current irrigation water right place of use currently covers all of these areas and will simply be reduced.

John Galgano and Susan Galgano, who own Lot 10, have given permission for the Silver Sage Owners Assn Inc. to own water rights on their property. No transfer application is being submitted on behalf of the Galgano's at this time.

Multiple attempts have been made to contact the Crouch's who own Lot 11 regarding the proposed water right transactions. No correspondence or response has been received by Brockway Engineering or the Silver Sage Owners Assn Inc. At this time the water rights currently located on Lot 11 will remain in the name of Silver Sage Owners Assn Inc.

Based on correspondence with IDWR, existing wells that have been drilled as domestic but will now be utilized as domestic and irrigation well must pay the difference permit fee of a domestic well (\$75.00) verses an irrigation well (\$200.00). Therefore, a fee of \$125.00 will be assed per lot owner with an existing well.
