6. GENERAL INFORMATION

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

14" existing well, 16" proposed well, gravity irrigation system. Measuring devices and lockable controlling works will be accommodated upon Department's request. The proposed well is also authorized for permit 63-32610.

- b. Who owns the property at the point(s) of diversion? Applicants

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:

- c. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

- ☐ ☒ undergone a period of five or more consecutive years of non-use,
☐ ☒ currently used in a mitigation plan limiting the use of water under the right(s), or
☐ ☒ currently enrolled in a Federal set-aside program limiting the use of water under the right(s)?

If yes, describe:

- d. Is any portion of the water right(s) proposed to be changed currently leased to the Water Supply Bank? ☐ Yes ☒ No

- ☐ If yes and there are multiple owners, attach a Lessor Designation form.
☐ If yes, the individual owner or designated lessor must complete, sign and attach an IRS Form W-9.
(Disregard if these items are on file and ownership has not changed.)

7. **MAP** – ☒ Attach a map of the diversion, measurement, control and distribution system. Include the place of use if a split of the water right occurred. Clearly label the map with township, range, section and ¼ ¼ of section information. You may create a map at idwr.idaho.gov, Water Rights, Water Right Transfers, File a Transfer Application, Step 2C.

8. **SIGNATURE** – The information in this application is true to the best of my knowledge. I understand any willful misrepresentations in this application may result in rejection of the application or cancellation of an approval.

Transfer Approval Notice

Dear Water Right Holder and other Interested Persons:

The Department of Water Resources has issued the enclosed approved Transfer of Water Rights. Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

The Transfer of Water Rights is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

If the transfer approval includes a condition requiring measuring and recording devices, such devices shall comply with specifications established by the Department. Detailed specifications are available on the Department's home page on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at (208) 334-2190

Sincerely,

A handwritten signature in blue ink, appearing to read "Anna Kaiser".

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

TO: Transfer No. 83143
FROM: Allen Bradbury
DATE: 05/31/2019
RE: Evaluation of Application

Summary of Application Proposal

Narrative: This transfer proposes to add a point of diversion to water rights 63-3031 and 63-21323. The system will be comprised of a 14" existing well and a 16" proposed well feeding a gravity irrigation system.

Water right 63-3031 is a decreed right for irrigation of 139.0 acres at a rate of 1.8 cfs (volume 625.5 AF) from groundwater. Water right 63-21323 is a decreed right for irrigation of 39.0 acres at a rate of 0.78 cfs (volume 175.5 AF) from groundwater. Both water rights share the same quarter-quarter for their respective points of diversion. Also, water right 63-32610 is an active permit for domestic and fire protection use from the same quarter-quarter Township 02N, Range 03W, Section 8 SENWSE.

Pursuant to Section 42-222, Idaho Code, the Department has discretion to provide public notice as deemed appropriate. The water right changes proposed through this transfer application do not appear to change the effect on the original or hydraulically connected water source or affect other water rights. Therefore, staff review of the transfer application found no cause to require public notice. This application will continue processing without advertisement and be forwarded for approval consideration.

Location of Application Proposal: The proposed and existing well sites are south of Locust Lane and West of Cool Road and 4 miles southeast of Marsing, Idaho and about 2 miles south of Lake Lowell.

Summary of Information Submitted

Authority to File: The application is in the names of Robert D. and Carol J. Gray, residing at 8259 Lake Shore Drive Nampa, ID, both applicants signed the application. Water rights 63-3031 and 63-21323 are in the name of the same persons as this transfer application. The place of use is not owned by the applicant but according to tax assessment records the parcel is owned by Breanna Dairy. This application is for a change in point of diversion and will not change the point of use.

Water Right Validity/Historical Beneficial Use:

The decree for water right number 63-3031 was issued on 2/6/2009 and for water right number 63-21323 was issued on 9/26/2006. Aerial imagery clearly shows evidence of agricultural production and irrigation at the place of use. Since evidence exists that shows irrigation occurring on the applicant's property within the last five years, the water rights are presumed to be valid at the time of this application.

Overlap Analysis: Three surface water delivery entities overlap water rights 63-3031 and 63-21323. Water right #63-8444 overlaps acres in the same Q-Q, however these are different land parcels under different ownership.

Injury to Other Water Rights: The proposed points of diversion are located within the Basin 63 Ground Water Area of Concern of South Canyon County and Groundwater Concern Area of Lake Lowell. Water right 63-3031 and 63-21323 share the same Q-Q-Q for their respective points of diversion. Also located in the same Q_Q is water right 63-32610 which belongs to the same property and is a groundwater right

for domestic and fire protection. A drillers report could not be found for the existing well. However, a well drilled under permit #887954 went 700 feet without encountering water.

Enlargement of Use: Water rights 63-3031 and 63-21323 are primary groundwater rights. This transfer proposes to only add a point of diversion. Rights 63-3031 and 63-21323 remain limited to a total diversion rate of 1.8 cfs, a total annual maximum diversion volume of 801.0 af at the field headgate, and the irrigation of 178.0 acres.

Local Public Interest: No issues were identified. It is within the local public interest to allow public properties to develop their property and use their water rights to the fullest extent which in turn benefits the public at large.

Beneficial Use/Conservation of Water Resources: The application proposes beneficial use consistent with conservation of water resources in Idaho.

Summary of Application Approval / Denial

The application is consistent with criteria of I. C. § 42-222 and should be processed. Assuming no other information contradicts the above analysis, the application can be approved as reflected by the draft approval.
