Notice of Change in Water Right Ownership

1. List the numbers of all water rights and/or adjudication claim records to be changed. If you only acquired a portion of the water right or adjudication claim, check "Yes" in the "Split?" column. If the water right is leased to the Water Supply Bank, check "Yes". If you are not sure if the water right is leased to the Water Supply Bank, [see #6](#) of the instructions.

Water Right/Claim No.	Split?	Leased to Water Supply Bank?	Water Right/Claim No.	Split?	Leased to Water Supply Bank?

2. Previous Owner's Name: Silver Sage Owners Assn Inc
Name of current water right holder/claimant
3. New Owner(s)/Claimant(s): See attached copies of transfer applications: (4) water rights split 10 ways
New owner(s) as listed on the conveyance document Name connector ☐ and ☐ or ☐ and/or
- Mailing address _____ City _____ State _____ ZIP _____
- Telephone _____ Email _____
4. If the water rights and/or adjudication claims were split, how did the division occur?
☐ The water rights or claims were divided as specifically identified in a deed, contract, or other conveyance document.
☐ The water rights or claims were divided proportionately based on the portion of their place(s) of use acquired by the new owner.
5. Date you acquired the water rights and/or claims listed above: _____
6. If the water right is leased to the Water Supply Bank changing ownership of a water right will reassign to the new owner any Water Supply Bank leases associated with the water right. Payment of revenue generated from any rental of a leased water right requires a completed [IRS Form W-9](#) for payment to be issued to an owner. A new owner for a water right under lease shall supply a W-9. Water rights with multiple owners must specify a designated lessor, using a completed [Lessor Designation](#) form. Beginning in the calendar year following an acknowledged change in water right ownership, compensation for any rental will go to the new owner(s).
7. This form must be signed and submitted with the following **REQUIRED** items:
☐ A copy of the conveyance document – warranty deed, quitclaim deed, court decree, contract of sale, etc. The conveyance document must include a legal description of the property or description of the water right(s) if no land is conveyed.
☐ Plat map, survey map or aerial photograph which clearly shows the place of use and point of diversion for each water right and/or claim listed above (if necessary to clarify division of water rights or complex property descriptions).
☐ Filing fee (see instructions for further explanation):
 o \$25 per *undivided* water right.
 o \$100 per *split* water right.
 o No fee is required for pending adjudication claims.
☐ If water right(s) are leased to the Water Supply Bank AND there are multiple owners, a Lessor Designation form is required.
☐ If water right(s) are leased to the Water Supply Bank, the individual owner or designated lessor must complete, sign and submit an IRS Form W-9.

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of an Application for Transfer changing ownership of a portion of the above referenced water right(s) to you. Based on the deeds provided, the Department has modified its records and has enclosed a computer-generated report for you.

Your Application for Transfer will be processed based on the new water right numbers in your name(s). You will receive additional correspondence regarding the processing of that application.

The portion of the water right retained by the original right holder retains the original water right number. The Department is sending the original right holder a copy of this letter and a computer-generated report showing the changes to the original water right.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 736-3033.

Sincerely,

Allison Inouye

Based on the deeds provided, the Department has modified its records and has enclosed a computer-generated report for you.

Your Application for Transfer will be processed based on the new water right numbers in your name(s). You will receive additional correspondence regarding the processing of that application.

The portion of the water right retained by the original right holder retains the original water right number. The Department is sending the original right holder a copy of this letter and a computer-generated report showing the changes to the original water right.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

Greg,

In the past Jim Speck had represented Silver Sage Owners Assn. for various reasons. Currently he is not engaged in representing any of the water rights for SSA and has been notified. I'm sure that he was named as the representative prior to these actions, however for the time being he should be removed. Thank you for bringing this to my attention and if you or IDWR have questions, please reach out.

Mike,

I talked with IDWR about the transfer applications. They have started to process them. IDWR is going to split all of the water rights first according to the quitclaim deeds. These means that when the transfers are advertised that each of the lot owners will be listed as the applicants and not 10 transfers in the name of the HOA.

IDWR is asking for clarification regarding water right 37-22499 which is the ground water right involved in these transfers. This right currently lists Jim Speck as the attorney for this water right. Please provide a written statement (email or paper) from Silver Sage Owners Assn Inc regarding who if any of the transfer applicants Jim Speck will be representing. You can simply reply to this email and I will forward it on to the IDWR agents working on the transfers.

Re: Silver Sage Subdivision

Dear Mr. Skinner:

Attached to this letter are 10 transfer applications. The intent of the transfer applications is to assign 11 portions of water rights 37-22499, 37-2843, 37-21240 and 37-21242 to various property owners and entities associated with the Silver Sage Subdivision.

The parent water rights 37-22499, 37-2843, 37-21240 and 37-21242 will be split based on the attached Transfer Analysis Spreadsheet to the various property owners. The remaining portion of the parent water rights will remain in the name of Silver Sage Owners Assn Inc. The 5.9 acre portion of water rights retained by Silver Sage Owners Assn Inc. will be located in common areas, roadways, and on individual lot owners property. The current irrigation water right place of use currently covers all of these areas and will simply be reduced.

John Galgano and Susan Galgano, who own Lot 10, have given permission for the Silver Sage Owners Assn Inc. to own water rights on their property. No transfer application is being submitted on behalf of the Galgano's at this time.

Multiple attempts have been made to contact the Crouch's who own Lot 11 regarding the proposed water right transactions. No correspondence or response has been received by Brockway Engineering or the Silver Sage Owners Assn Inc. At this time the water rights currently located on Lot 11 will remain in the name of Silver Sage Owners Assn Inc.

Based on correspondence with IDWR, existing wells that have been drilled as domestic but will now be utilized as domestic and irrigation well must pay the difference permit fee of a domestic well (\$75.00) verses an irrigation well (\$200.00). Therefore, a fee of \$125.00 will be assed per lot owner with an existing well.
