Dear Water Right Holder and other Interested Persons:

The Department of Water Resources has issued the enclosed approved Transfer of Water Right(s). Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

The Transfer of Water Right(s) is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

If the transfer approval includes a condition requiring measuring and recording devices, such devices shall comply with specifications established by the Department. Detailed specifications are available on the Department's home page on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at (208) 736-3033.

Sincerely,

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

To: Transfer 83148
From: Allison Inouye
Re: Evaluation of Sufficiency of Information Submitted

Transfer 83148 is one of two companion applications for transfer that were filed simultaneously. This application proposes to split off a 77 acre portion of ground water right 36-2270 which authorizes the diversion of 3.40 cfs for irrigation of 170 acres. The owner of the right wishes to separate the farm into two distinct systems. The split portion will retain one of the two current points of diversion. The place of use for the split portion will be slightly modified to reflect current farming practices. The POD and POU are located approximately 2 – 2.5 miles east of Minidoka. The POD and POU are located within Water District 130. Watermaster comments were solicited and the watermaster did not oppose approval of the transfer.

- **Authority to File**

The application is filed in the name of Eugene & Shirley Hruza, the current owners of the water right being transferred per IDWR records. The applicants provided deeds indicating their ownership of the land at the proposed place of use. A letter of authorization from the USDA Farm Service Agency, who is a lienholder on the property, has also been included with the application.

- **Water Right Validity**

Water right 36-2270 was decreed in the SRBA in 1997. A review of aerial imagery and WMIS records for the past 5 years indicate that the property involved with the transfer has been irrigated.

- **Injury to Other Water Rights**

None anticipated. The transfer proposes to drop one POD for the split portion of the right and the POU change involves moving acreage onto contiguous lands, so no hydrologic change is expected that would affect other water rights.

- **Enlargement of Use**

None anticipated. The water rights will remain subject to Water District 130 measurement requirements.

- **Local Public Interest**

No issues anticipated.

- **Beneficial Use/Conservation of Water Resources**

Proposed use is recognized as a beneficial use of water.

- **Effect on the Economy of the Local Area**

None anticipated.

- **Effect on the Agricultural Base of the Local Area**

None anticipated.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

Dear Nathan:

A copy of the above referenced application is enclosed. Please review the application, then complete the enclosed recommendation form as necessary, and return it to this office within 21 days of the date of this letter.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the water master, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR's regional offices can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. Re: Legal Notice Not Required

Pursuant to Section 42-222, Idaho Code, the Department has discretion to provide public notice as deemed appropriate. The water right changes proposed through this transfer application do not appear to change the effect on the original or hydraulically connected water source or affect other water rights. The transfer proposes to split off a portion of an irrigation water right and drop one point of diversion and modify a portion of the POU to lands contiguous to the original POU. Therefore, staff review of the transfer application found no cause to require public notice. This application will continue processing without advertisement and be forwarded for approval consideration.

Re: Filing Fee

The filing fee for this transfer is based on the total amount of water being transferred, 0.04 cfs. The application proposes to drop one point of diversion, which does not require filing a transfer so there is no fee associated with that. The portion of the place of use that is proposed to change equates to 2 acres out of the 170 acre limit. The fee was calculated based on the proportion of the place of use that is proposed to change ($2/170 \times 3.4$ cfs), which results in 0.04 cfs. The transfer fee schedule indicates that the filing fee is \$200 for a transfer involving 0.00 – 0.20 cfs. (Receipt No. S037282)

RE: Applications for transfer 83148 & 83149

Dear Mr. & Mrs. Hruza:

On April 22, 2019 our office received two Applications for Transfer of Water Right involving water rights 36-2270 and 36-8290. After a review of the applications, there is one item that needs to be addressed before we can process the applications:

- On both applications under Section 5 - General Information, part (c) asks if there are any liens, mortgages, etc. on the lands from which the water is proposed to be transferred. The answer provided indicates that there is a mortgage on the property through FHA, but the required statement from FHA agreeing to the proposed changes was not included with the transfer applications. This can be provided as a notarized statement or a statement on official letterhead signed by an authorized representative.

Processing of the applications will not proceed until we receive the requested consent letters. Please supply the above requested information by May 27, 2019, or the Department will return your Applications for Transfer and initiate a refund of the filing fees. If you have any questions, feel free to contact me.

Sincerely,

Allison Inouye
Water Resource Agent
