Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records and has enclosed a computer-generated report for you.

Updating the ownership record for a water right does not reconfirm the validity of the right. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

Re: Change in Ownership for Water Rights in the name of Global Ag Properties II USA LLC
(See attached list – Blaine County Water Rights)

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records and has enclosed a computer-generated report for you.

Please note that the Department did not change the ownership of water right 36-16041. This particular record is in the name of the US Bureau of Land Management and is appurtenant to land not described in the deed that accompanied the Notice of Change in Water Right Ownership. Further examination of Department records indicates that there are fifteen additional water rights currently in the name of Western Mortgage & Realty Company that are appurtenant to land(s) described in the deed that accompanied the Notice of Change in Water Right Ownership. However, these records were not identified in the Notice of Change in Water Right Ownership. Irrigation rights 36-17124, 36-17125, 36-17126, 36-15217, and 36-2069 along with domestic &/or stock water rights 36-15270, 36-10516, 36-10517, 36-10518, 36-10865, 36-7769, 36-10864, 36-10866, 36-10867, and 36-10868 all in the name of Western Mortgage & Realty Company are appurtenant to land(s) described in the deed that accompanied the Notice of Change in Water Right Ownership. Updating the ownership of these fifteen records would cost an additional \$375.00. Because the Department was unable to update the ownership of 36-16041, which \$25.00 was paid for, if \$350.00 is submitted along with a request to update the ownership, the Department could update the ownership of these 15 records.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 736-3033.

Sincerely,

Re: Change in Ownership for Water Rights in the name of Global Ag Properties II USA LLC
(See attached list – Lincoln & Minidoka County Water Rights)

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records and has enclosed a computer-generated report for you.

Please note that further examination of Department records indicates that there are nine additional water rights that are appurtenant to land(s) described in the deeds that accompanied the Notice of Change in Water Right Ownership. However, these records were not identified in the Notice of Change in Water Right Ownership. Rights 36-10491, 36-10490, 36-11550, 36-12046, 36-11549, 36-11548, 36-11601, 36-13319, and 36-13320 are appurtenant to land(s) described in the deeds that accompanied the Notice of Change in Water Right Ownership. Updating the ownership of these nine records would cost an additional \$225.00. If \$225.00 is submitted along with a request to update the ownership, the Department could update the ownership of these nine records.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.
